ORDER OF THE BOARD (by Dr. Satchell):

Respondent Jack Carlstrom, d/b/a Lockport Trucking Company (Carlstrom) filed, pursuant to Procedural Rule 333, a motion for modification of the Board's final Order of June 22, 1979. The motion sets forth that the drainage way has been completed and requests that the permits for disposal at the landfill of FCC catalyst fines, hot lime sludge, calcium sulfate sludge and fly ash not be revoked. The motion is denied. The intent of the Board was to require a new application to the Agency for permits covering these materials. The alternative, an evidentiary hearing in a continuation of the enforcement case, would not be the best forum for Carlstrom to present evidence ordinarily appropriate to a permit application.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 9th day of August, 1979 by a vote of 4-0.
