

Dear Illinois Pollution Control Board
Please adopt the strong controls that,
by 2009, would cut coal plant
pollution by 90%.

MAY 10 2006

As a parent in Illinois, I am alarmed
by the threat to my children
posed by the levels of mercury now
found in our State's water and air.
Our children must have a clean
environment in which to grow and
thrive and this proposal can help
make that possible at a reasonable cost.
Sincerely, Emily Astor
