

Dear Members Of The Illinois Pollution Control Board:

I urge you to adopt strong controls that, by 2009, would cut coal plant mercury pollution by 90%.

Every river, lake, and stream in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring **RECEIVED** measures for mercury control will clean up local **CLERK'S OFFICE** lakes and streams and promote a healthy economy. **MAY 10 2006**

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve this plan to protect **STATE OF ILLINOIS** our families and our wildlife from unnecessary harm. **Pollution Control Board**

Sincerely,  
Name

Shelly Papp
