

Dear Members Of The Illinois Pollution Control Board:

I urge you to adopt strong controls that, by 2009, would cut coal plant mercury pollution by 90%.

Every river, lake, and stream in Illinois now carries a health warning for mercury contamination. Illinois can address this problem now and show America how requiring ~~reasonable~~ measures for mercury control will clean up local lakes and streams and promote a healthy economy. **RECEIVED**
CLERK'S OFFICE
MAY 10 2006

Reducing mercury emissions by 90% is achievable at reasonable cost. Please approve this plan to protect our families and our wildlife from unnecessary harm. **STATE OF ILLINOIS**
Pollution Control Board

Sincerely,
Name

CHRIS Klarer
