

ILLINOIS POLLUTION CONTROL BOARD
March 19, 1982

IN THE MATTER OF:)
)
PROPOSED AMENDMENT TO CHAPTER 2:) R80-11
AIR POLLUTION, RULES 309, 312 AND 405,)
NON-METHANE HYDROCARBON AND OZONE)
STANDARDS, OZONE EPISODE CRITERIA.)

Proposed Rule. Second Notice.

ORDER OF THE BOARD (by J. Anderson):

On July 23, 1981, the Board ordered that first notice of these revisions be published in the Illinois Register, which was accomplished in Vol. 5, #33 (August 14, 1981). Based on the record before the Board, the Board finds that no substantive modification to the proposal is justified. However, one change is being made between the rules being sent to second notice, and the rules as published in Illinois Register Vol 5 #33. As published Rule 312(b) provided that ozone was to be

"measured by the ozone-ethylene reaction method as described in 36 Federal Register, pp. 22392-22393, November 25, 1971 or by an equivalent method approved by the Agency".

The Agency's September 15 proposal, as published in Environmental Register #224, proposed that the Federal Register reference and page numbers be deleted, to be replaced by reference to the codified version of this measurement method "40 CFR 50, Appendix D, as amended." As this does not involve a substantive change to this rule, and references the more accessible source, the Board will adopt the rule to utilize the CFR reference, reflecting the clerical omission.

Accordingly, second notice of the revisions as contained in the Board's Order of July 23, 1981 shall, with the noted change, be submitted to the Joint Committee on Administrative Rules.

IT IS SO ORDERED.

Board Chairman J. Dumelle concurred.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 19th day of March, 1982 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
