ORDER OF THE BOARD (By Dr. Satchell):

Petition filed February 2, 1976 is inadequate in that:

- (1) no assurance is given that by granting instant petition violation of other regulations and/or rules would not ensue to the detriment of the environment; specifically, Rules 203(f), 402, and 401(c) of Chapter 3: Water Pollution of the Pollution Control Board.
- (2) pursuant to the Procedural Rules of the Board, statements covering a time schedule [Rule 401(vii), (viii)] for compliance are required.

While the arguments for use of ion exchange methods for pollution abatement and non-use of the regenerating solution may be reasonable, it is not clear why the method of regeneration used in fertilizer manufacture is also proposed here.

Petitioner shall amend the Petition within 45 days from the date of this Order to supply the requested information. Failure to timely file the Amended Petition shall make this cause liable to dismissal for inadequacy. The 90-day decision period set by statute shall run from the date of filing the Amended Petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 11th day of February, 1976 by a vote of 4-0.

 Christan L. Moffett, Clerk
 Illinois Pollution Control Board
