

ILLINOIS POLLUTION CONTROL BOARD
March 28, 1977

IN THE MATTER OF:)
)
WATER QUALITY AND EFFLUENT) R 77-7
STANDARDS AMENDMENTS,)
COOLING LAKES)

ORDER OF THE BOARD (by Mr. Zeitlin):

The Board, on Motion of Mr. Zeitlin, hereby proposes and authorizes for publication the following procedural change to the Board's Regulations. Procedurally, the Proposal recommended in this Order will require neither public hearings nor an economic impact study. Public comment shall be received for a thirty day period. Final action will follow the public comment period.

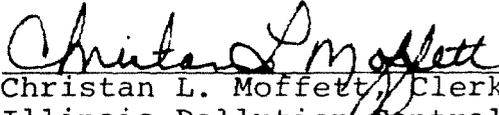

The Proposal is made to simplify procedures currently existing under Rule 203(i)(10) of Chapter 3: Water Pollution, of the Board's Rules and Regulations. It is felt that the change will not affect the rights of any possible parties, nor will the requirement of hearing or the standard for decision in Rule 203(i)(10) be affected. The Proposed Order is as follows:

Rule 203(i)(10)(cc) is therefore amended to read as follows:

- (cc) At an adjudicative hearing, the discharger shall satisfactorily demonstrate to the Board that the artificial cooling lake receiving the heated effluent will be environmentally acceptable, and within the intent of the Act, including, but not limited to:
- (1) provision of conditions capable of supporting shellfish, fish, and wildlife, and recreational uses consistent with good management practices, and
 - (2) control of the thermal component of the discharger's effluent by a technologically feasible and economically reasonable method.

IT IS SO ORDERED.

I, Christian L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 28th day of March, 1977, by a vote of 5-0.

Christian L. Moffett, Clerk
Illinois Pollution Control Board
