

CLEAN AIR QUESTIONNAIRE
HAROLD WASHINGTON COLLEGE
AUTUMN, 2006

RECEIVED
CLERK'S OFFICE
FEB 05 2007
STATE OF ILLINOIS
Pollution Control Board

We would like to ask for your help to get a better insight on how people view the severity of what's going on in our world today. As part of that, we would like to ask a few questions about asthma and how much you know. We thank you for taking the time to fill this out and would appreciate your honesty.

1. Basic Information

Age: 19 Sex: M Race/Ethnicity: Hispanic

2. Do you have asthma, or do you know anyone who has asthma?

Yes [] No

3. How important is air pollution as being a trigger for asthma?

[1] [2] [3] [4] [5]
Not at all important Extremely important

4. What can people do to reduce the triggers for asthma in the air?

- Adults should avoid smoking indoors when someone with asthma lives there, and look for other sources of indoor gases (ovens, etc.).
- Individuals should make sure all indoor surfaces are regularly cleaned or vacuumed.
- Communities should identify sources of fine particulate pollution (diesel exhaust, etc.)
- Illinois IEPA should eliminate sources of pollution that contribute to asthma.

We would like to ask for your help to get a better insight on how people view the severity of what's going on in our world today. As part of that, we would like to ask a few questions about asthma and how much you know. We thank you for taking the time to fill this out and would appreciate your honesty.

1. Basic Information

Age: 58 Sex: M Race/Ethnicity: _____

2. Do you have asthma, or do you know anyone who has asthma?

Yes No

3. How important is air pollution as being a trigger for asthma?

[1] [2] [3] [4] [5]
Not at all important Extremely important

4. What can people do to reduce the triggers for asthma in the air?

- Adults should avoid smoking indoors when someone with asthma lives there, and look for other sources of indoor gases (ovens, etc.).
- Individuals should make sure all indoor surfaces are regularly cleaned or vacuumed.
- Communities should identify sources of fine particulate pollution (diesel exhaust, etc.)
- Illinois IEPA should eliminate sources of pollution that contribute to asthma.
