

ILLINOIS POLLUTION CONTROL BOARD
March 19, 1981

IN THE MATTER OF:)
)
PARTICULATE EMISSION LIMITATIONS,) R78-16
RULE 203(g)(1) OF CHAPTER 2.)

ORDER OF THE BOARD (by I. Goodman):

Insofar as the Agency's February 25, 1981 motion seeks reconsideration of the August 21, 1980 Order entered herein, it is untimely. Inasmuch as it seeks to consolidate these proceedings with the new sulfur dioxide proceedings of R80-22, and seeks to "repromulgate the remanded Rule 203(g)(1) (with the Agency's decimal point amendment)," the Board construes the motion as one to allow the filing of a new proposal for Rule 203(g)(1).

The Board solicits the Agency's filing of such new proposal. Such new proposal should include an allegation of the reason/s simultaneous compliance with its proposed sulfur dioxide regulations (except for the 6.8-lb. limitation section of the proposal) is technologically feasible as well as economically reasonable, and should address the problem of fine particulate matter.

Such new proposal is not to be consolidated for purposes of hearing with R80-22.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the _____ day of March, 1981 by a vote of 5-0.

Christan L. Moffett
Christan L. Moffett, Clerk
Illinois Pollution Control Board
