**Owner of Property: Herman F. & Karen Meyers**

**Weather: 24 F, Clear**

**Soil Conditions: Frozen**

This inspection was made as a follow-up to a March 22, 2006 inspection. The site is located at 5328 Staton Ridge Road, in Belknap, Illinois. The site was easily visible from Staton Ridge Road. Garrison Gross accompanied me on the site inspection. At least four dogs were chained on the property (some pitbull mix and rotweiler). Twenty-one pictures were taken of the waste from on-site. We knocked on the door of the residence but there was no answer. There were at least six vehicles at the front of the property that displayed current Illinois license plates (Ford Crown Victoria, 8883847; Dodge Dakota, 900445; Dodge Ram, 4415XH; Dodge Neon, 8982819; Chrysler Concorde, 8399681; and Pontiac Trans AM, Moms TAZ). No business signs were readily visible on the property.

According to Secretary of State Police, Mr. Meyers has been investigated on two occasions for running an unlicensed junkyard, once in 1998 and again in 2000. At the time of the 2000 investigation, it was reported that Ms. Meyers stated they did not sell any parts off the vehicles. Mr. Meyers was served with a Cease and Desist Order from Secretary of State in 2000.

There were at least 35 unlicensed vehicles located on this property (pictures 001-007, 009, 010-021). The vehicles were of various makes, models, and years. Vehicles were filled with waste, both inside passenger compartments (picture 015) and beds of pickups (pictures 001, 006, 013, 014, 019, and 020). Scrap metals, C & D materials, fencing, a water heater, tires, and lumber in the beds of pickups were exposed to the elements and unprotected. Vehicles were missing components (picture 016).

There were at least three areas of improper tire storage located on the property. Area A consists of vehicles and miscellaneous waste. Area B contains tires scattered throughout the area, vehicles with missing components and exposed to the elements, scrap metal, 55-gallon drums, and miscellaneous debris (pictures 003, 004, 005, 007, 008, 009, 019, and 020). Area B contains approximately 120 tires. Pictures 006 and 007 show locations within Area B

where tires, both off and on rims, were piled. Area C contained approximately 15 tires, vehicles with missing components and exposed to the elements, 55-gallon drums, and miscellaneous debris (pictures 009 and 010). Area D contained scattered debris in standing, frozen water and in a meadow area (pictures 011 and 012). According to a phone conversation with Herman Meyers on April 12, 2006, the meadow area is the location where waste burial had previously taken place. Area E includes vehicles loaded with miscellaneous debris and tires that are on and off rims (pictures 013 and 014). Passenger compartments of vehicles are loaded with waste such as appliance parts, boxes, electronic equipment, and metal scraps (picture 015). Vehicles are not drivable and have missing components (picture 016).

Additional vehicles and waste have been brought onto the site since the March 22, 2006 inspection. Waste previously identified during the September 29, 2000 inspection, June 14, 2001 inspection, and March 22, 2006 inspection remain on site.

The following conditions, which constitute violations, were observed:

**Illinois Environmental Protection Act Requirements:**

1. **9(a) Cause, threaten or allow air pollution in Illinois**
2. **9(c) Cause or allow open burning**
3. **12(a) Cause, threaten or allow water pollution in Illinois**
4. **12(d) Create a water pollution hazard**
5. **21(a) Cause or allow open dumping**
6. **21(d) Conduct any waste-storage, waste-treatment, or waste-disposal operation:**
  - (1) **Without a permit**
  - (2) **In violation of any regulations or standards adopted by the Board**
7. **21(e) Dispose, treat, store, or abandon any waste or transport any waste into the State at/to sites not meeting requirements of Act**
8. **21(p) Cause or allow the open dumping of any waste in a manner which results in any of the following occurrences at the dump site:**
  - (1) **Litter**
  - (3) **Open burning**
  - (4) **Deposition of waste in standing or flowing water**
  - (7) **Deposition of general construction or demolition debris or clean construction or demolition debris**
9. **55(a) No person shall**
  - (1) **Cause or allow open dumping of any used or waste tire**

**35 Illinois Administrative Code Requirements Subtitle G**

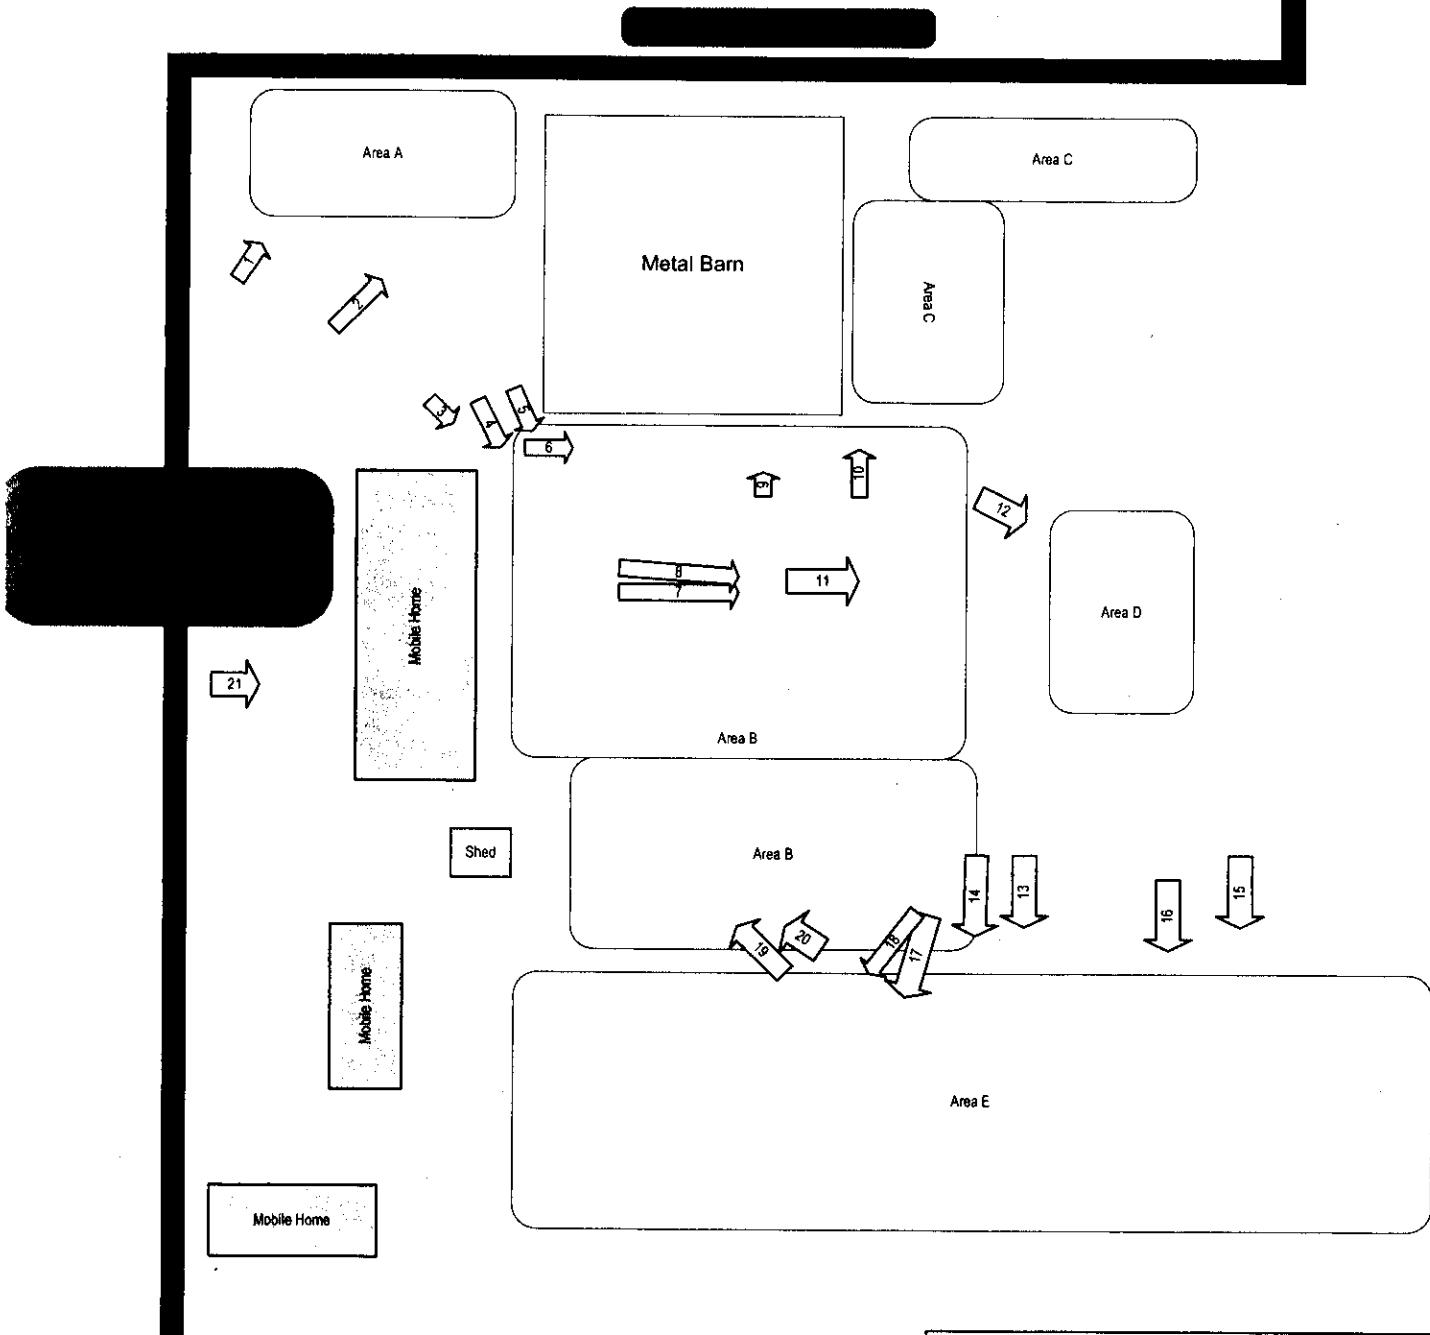

10. **812.101(a) Failure to submit an application for a permit to develop and operate a landfill**

**Findings:** The location remains a scenic blight with the continual accumulation of waste haphazardly collected for an extended period of time. Mr. Meyers has failed to supply the Illinois EPA with receipts for waste removed from his property in accordance with the Open Dump Administrative Citation Warning Notice issued October 18, 2000 or the Open

**Dump Administrative Citation Warning Notice issued April 4, 2006. The method of improper storage for many items referenced in the photographs taken of this property since September 29, 2000 (tires, lead acid batteries, abandoned vehicles, C & D debris, general refuse) creates a potential environmental hazard. Items are not being salvaged as defined in 35 Illinois Administrative Code. According to the Secretary of State, Mr. Meyers does not possess a license as defined for a rebuilder, repairer, automotive parts recycler, or scrap processor. Open burning and burial of waste has taken place on the property.**
