General Comments:

On May 17, 2007 at 02:00 P.M., I conducted an inspection at the East Side Mobile Home Village facility, located at 1938 County Road 3000 N - #14, Rantoul, Illinois 61866, phone number 217/892-9270.

This inspection was conducted in response to a complaint that several mobile homes were removed from the Mobile Home Park and pulled to the north side of the property, possibly to be burned.

The purpose of this inspection was to determine regulatory status and evaluate compliance with the Illinois Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). The inspection consisted of walking around the site, taking pictures, and talking to Mr. Marcelo Mendoza, the facility Owner, by telephone, on May 4, 2007, prior to the inspection. The weather was sunny, the temperature 55 degrees.

Background:

The facility was initially inspected on April 18, 2002, in response to a complaint that mobile homes, tires, and other refuse was being open burned on site. During the inspection widespread open dumping of and open burning of refuse was observed. An administrative Citation Warning Notice dated May 14, 2002, was sent to Mr. Marcelo Mendoza, the Owner of the Mobile Home Park. Mr. Mendoza replied in a letter received on June 5, 2002, saying that residents of the Mobile Home Park were dumping on site without permission and that he would take steps to stop it and to remove and dispose of the refuse by August 20, 2002. Mr. Mendoza's proposal was accepted by the Agency in a letter dated June 11, 2002.

Inspection:

When I arrived at the Mobile Home Park I drove to the north side of the property to an undeveloped area. I saw a large pile of refuse measuring approximately 60' x 60' x 2' which contained refuse in the form of vinyl siding, dimensional lumber, asphalt shingles, plastic containers, metal, appliances, mattresses, wooden and upholstered furniture, and used tires (see photos #1 through #7, #11, and #13).

I also saw a large pile of soil-like material measuring approximately 8' x 25' x 4' that contained small pieces of refuse consisting of plastic, glass, metal, and wood (see photo #2).

Just north of this main pile of refuse I saw another pile of refuse measuring approximately 10' x 1' x 2' that contained heat scorched metal, scraps of partially burned dimensional lumber, furniture, and wiring (see photos #8, #10, #14, and #15). There was a large metal container that contained broken glass and apparent ashes from open burning as well as small pieces of plastic, metal, and some apparent landscape waste (see photos #9, #10, #14, and #15). The metal container also had ashes around the base, apparently filtering from holes in the bottom of the container (see photo #14).

At the north east end of the property I saw a pile of approximately 100 used tires, some of them containing water (see photo #12). I also noticed at least five used tires in the largest refuse pile (see photo #11) and another 14 used tires sitting on a trailer on the west side of the field (see photo #16).

There were also three apparently uninhabited mobile homes, one partially dismantled (see photos #8 and #10).

I left the site at 2:30 P.M.

Subsequent to receiving a complaint, On May 4, 2007 I had a telephone discussion with Mr. Mendoza I advised him that none of the mobile homes could be open burned and must be properly disposed.
