I can include these in the next docket, R08-5 Wastewater Pretreatment/R08-7 SDWA, which will include the federal methods amendments of March 12, 2007. Roger mentioned some of this. Do you want me to add your e-mail as a comment into R07-2/R07-11 and R08-5/R08-7, or do you want to send me soemthing more formal. The e-mail is sufficient. Let me know.

Mike:

After reviewing the Board's Opinion and Order dated July 26, 2007, the following errors were found:

- Initial distribution system evaluation should cite to 141.601(b), which is the federal cite instead of 611.921(b).
- "Wellhead protection area" must cite to 17.2 instead of 17.1. There are two locations were 17.1 was incorrectly cited.
- On page 107 of the Order, 611.801(b), line 3, replace "or" with "of" [...within the WHPAs and evaluation of the...]

There is also a mistake in the Opinion itself. On page 9 of the Opinion "40/60 certification" should be "40/30 certification". I am not sure if this change can be made, but I wanted to bring it to your attention.

Thanks.

Stefanie
