SUPPLEMENTAL STATEMENT (by J.D. Dumelle):

The deliberate misrepresentation by the Petitioner that the sewer system was adequate is the most disturbing aspect of this case. If the Board is to overlook misrepresentation here then of what use is a permit system?

A penalty, though probably called for, would be somewhat like "paying to pollute". The holding tank provision of the Order should avoid aggravating the downstream sewer capacity problem. The ultimate answer, however, is for the Village of Lombard (not a party in this case) to get on with a comprehensive sewer system rehabilitation and improvement program to solve the existing problems.
