

November 4, 2007

to the Attention of: CLERK
Illinois Pollution Control Board
Case#08-25

RECEIVED
CLERK'S OFFICE
NOV 07 2007
STATE OF ILLINOIS
Pollution Control Board

PC# 1

We, as interested grandparents, are asking your Board to remember that PDC's toxic waste landfill sits atop the aquifer from which most of Peoria area's water is pumped, *the only one nationally still operating in such a hazardous location*. And --Peorians must breath this air.

Peoria's medical community has begun questioning the possible health effects. Our grandson passed away one year ago at the age of 17, from an incurable brain tumor, *He lived since he was a baby in the vicinity of another local landfill*. This possibility, the effects of landfills on children's health is certainly worth considering in your deliberations.

We appreciate your attention to this communication.

Ed and Dolores Klein
