Springfield, Illinois 62704

Re: Request for Economic Impact Study for: **Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9)**

Dear Director Lavin:

On November 1, 2007, the Board accepted a proposal for hearing in Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9). I am writing to request that your Department conduct an economic impact study concerning this proposal. This rulemaking, filed with the Board by the Illinois Environmental Protection Agency (Agency), proposes amendments to the Board's water quality standards for the "Chicago Area Water Way System" (CAWS) and the Lower Des Plaines River. The Board is in the process of scheduling hearings in this rulemaking.

In this rulemaking, the Agency proposes amendments to update the designated uses and criteria necessary to protect the uses for the waters currently designated for Secondary Contact and Indigenous Aquatic Life Uses. These specific designations were for those waters not suited for General Use activities. All waters in northeastern Illinois that carry these designations are water bodies that were a part of the engineering effort that reversed the flow of the Chicago River and are known as the CAWS and the Lower Des Plaines River. In 2000 and 2002, the Agency began pilot programs for the Lower Des Plaines River and CAWS to develop use attainability analysis (UAA) for these waters. These proposed rule changes incorporate the findings of the pilot programs.

Since 1998, Section 27 (b) of the Environmental Protection Act has required the Board to:

- 1) "request that the Department of Commerce and Economic Opportunity (formerly the Department of Commerce and Community Affairs) conduct a study of the economic impact of the proposed rules. The Department may within 30 to 45 days of such request produce a study of the economic impact

ILLINOIS POLLUTION CONTROL BOARD

CHAIRMAN

G. Tanner Girard, Ph.D.

of the proposed rules. At a minimum, the economic impact study shall address a) economic, environmental, and public health benefits that may be achieved through compliance with the proposed rules, b) the effects of the proposed rules on employment levels, commercial productivity, the economic growth of small businesses with 100 or less employees, and the State's overall economy, and c) the cost per unit of pollution reduced and the variability of company revenues expected to be used to implement the proposed rules; and

(2) conduct at least one public hearing on the economic impact of those rules. At least 20 days before the hearing, the Board shall notify the public of the hearing and make the economic impact study, or the Department of Commerce and Economic Opportunity's explanation for not producing an economic impact study, available to the public. Such public hearing may be held simultaneously or as a part of any Board hearing considering such new rules." 415 ILCS 5/27(b) (2004).

If I, or my staff, can provide you with any additional information, please let me know.

Thank you in advance for your prompt response.

Sincerely,

G. Tanner Girard
Acting Chairman
Pollution Control Board
