P.C.# 39

Dear Illinois Pollution Control Board,

I am writing you this letter to ask that you make sure that our streams are protected under legislation. Please put the strongest antidegradation rules in place to ensure that our children can play and swim and catch interesting little creatures to study in our streams and rivers. Shame on those who think it's not important to maintain clean water systems. Please do not be shortsighted. If it's in your hands, then do what is right. Your neighbors, fellow community citizens, your children and grandchildren will thank you.

Thank you for helping me, as a parent and a person who thoroughly enjoys playing safely in creeks and the natural habitat.

Sincerely,

Cindy Quinby
