 v.) PCB 80-108
)
 ILLINOIS ENVIRONMENTAL PROTECTION)
 AGENCY and COUNTY OF DuPage,)
)
 Respondents.)

ORDER OF THE BOARD (by I. Goodman):

Woodlane's August 15, 1980 motion prays to amend in order to seek connection to the interim wastewater treatment (package) plant ordered by the Board to be constructed by certain past variance petitioners¹ as set forth in the compliance plans and the Board's Opinion in those matters. Such plant is to have a design average flow of 0.25 million gallons per day and minimum treatment capacity of the average equivalent mass BOD₅ and hydraulic loading that will be generated by the proposed projects of three of the petitioners (First Consolidated Properties, Inc.; Green Trails, Ltd.; and Grant Square Service Corporation).

Because it is possible that such project may upon completion be able to treat the estimated 72,000 gallons per day influent from Woodlane's Training Center facility, all five of the aforementioned petitioners (as well as the County of DuPage) are necessary parties to the instant petition.

Petitioner's motion to amend is denied for this reason. Leave is granted to file a renewed motion upon the proof of service of the existing petition, all allowed amendments, and the amendment proposed, as well as a copy of this Board Order, upon all five of the aforementioned petitioners within 45 days of the date of this Order.

Petitioner's motion to amend is also denied because, although it waives hearing on the petition, it attaches no affidavit averring that the facts stated in its petition, and any and all amendments made or proposed to be made thereto, are true. Without such affidavit, the Board will not, when hearing is waived, accept variance petitions.

IT IS SO ORDERED.

¹Corporate West, Inc. v. IEPA, PCB 80-96 (and related four consolidated cases).

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 18th day of September, 1980 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
