NARRATIVE INSPECTION REPORT

Date: September 18, 2008 Inspector: Sheila Williams

Site Code: 1818555005 County: Union

Site Name: Dongola/Corzine Time: 2:35 P.M. –2:52 P.M.

GENERAL REMARKS

On September 18, 2008 a follow up inspection was conducted at the Dongola/Corzine site. The original inspection was conducted on June 13, 2008 at which time apparent violations pertained to open dumping & open burning. It was apparent during the follow up inspection miscellaneous debris had been removed from Area B. Primarily farm equipment remained. However, apparent violations were still present in Area A. No one else was present during the inspection.

It did not appear additional open burning or open dumping had been done in Area A. However, the previously noted debris remained. Among the refuse in Area A were fluorescent light bulbs, demolition debris, a variety of metal, electronics, ash, plastics & general refuse. Area A was estimated to be approximately 81 cubic yards (35'x25'x2.5') in size.

One other area was noted. Because of tracks in the dirt it was apparent the ground abutting the burn area to the east had been worked with heavy equipment. During the previous inspection this area was gently rolling land with naturally growing grass like the surrounding area. Two pieces of metal that looked like used anchor bolts were protruding from the freshly worked dirt. In spite of pulling on the metal, neither of the two pieces would come out of the ground.
