This is a Petition for Review of the  
Administrative Citation

Reason for Review:

On Feb. 5, 2008 a storm hit my house resulting in major damage. My property also received major damage. Several trees, internet tower, TV tower and flag pole were all knocked down due to the storm.

The repairs to my house and property were delayed for quite some time due to snow and ice. I had to remove the damaged materials to another area because I had several trees down in my yard and no place to put the damaged materials, I have a farm about 1/8 mile from where I live. I took the damaged materials to the farm until I could get a dumpster.

The EPA was called and I was accused of making a dumpsite. This is not true. It was done only temporarily because my house and property where my house sets was heavily damaged.

There is a person that has moved into Belle Rive and has been giving the village board lots of problems. I am the mayor of Belle Rive and he told me he would

turn me in for anything he could. It is an ongoing problem.

The shingles were hauled off. Building materials were piled out there. I was trying to separate the good from the bad before hauling it to the dumpster. Part of it was set on fire. By who I DO NOT KNOW. I think I was set up.

I have cleaned up all the materials. It has taken me awhile to do this work because of my health.
