NARRATIVE INSPECTION REPORT DOCUMENT

On October 16, 2008 I (Donna Shehane) conducted an inspection at 13912 1675 East Street in Princeton, Illinois. I was accompanied by Shaun Newell, also an inspector from the Illinois EPA Rockford regional office. The weather at the time of this inspection was 49 °F, with North winds at 6 mph. This inspection was conducted as a follow-up inspection. The property owner had received an Administrative Citation Warning Notice for an earlier April 14, 2008 inspection. The original deadline for cleanup of the property was set at June 6, 2008. Mr. Danielson then requested an extension to July 6, 2008 to complete the cleanup. Since receipts were submitted documenting the removal of waste materials from the site, an extension to July 6, 2008 was granted. On July 1, 2008, I receive a letter from Mr. Danielson asking for an additional 30-day extension to complete the cleanup. Mr. Danielson cited the unforeseen necessity of having to transport his son to summer school the first three weeks of June, again submitting additional receipts. An extension was granted to July 31, 2008. On July 15, 2008 I reinspected the Danielson property and found only a minimal amount of cleanup. On July 28, 2008, Mr. Danielson submitted a third request for deadline extension due to a storm hitting the area, resulting in additional storm cleanup work. I verbally told Mr. Danielson that I would be unavailable for another reinspection until returning from vacation the week of August 11, 2008. On August 15, 2008, I reinspected the Danielson property and found additional cleanup had been completed, but a majority remained. At this time, I advised Mr. Danielson that I would consult with my supervisor regarding the status of the property. On September 8, 2008, I spoke with Mr. Danielson regarding the decision to give him one additional month (to October 15, 2008) to complete the cleanup. I emphasized that he must stop continuing to separate out what he thought was recyclable from the other waste/garbage in the bags and simply throw all the bags into a dumpster for disposal in a landfill.

By letter dated October 14, 2008, Mr. Danielson requested another extension of time for cleanup due to required overtime at work, upcoming dental surgery, and other personal issues.

We arrived on site at approximately 10:45 am. Mr. Danielson was introduced to Mr. Shaun Newell. We began the inspection on the east side of 1675 East Street. Photo # 1, taken to the southeast shows an area strewn with bags of household garbage. Photo # 2 was taken to the west and shows additional litter and waste near the backyard of the residence. Photo # 3 depicts more bags of waste, with some recyclable material inside and garbage that has been separated into a garbage can. Photo # 4 shows food-contaminated waste on the ground.

Photo # 5 reveals clothing and miscellaneous debris such as paper dumped on the ground. Photo # 6 reveals additional refuse bags on the ground.

Photo # 7 was taken of lumber and wire strewn on the ground. Photo # 8 depicts a waste pile containing food containers, plastic, paper and miscellaneous debris. More bags of refuse and strewn litter can be seen in Photo # 9.

Photo # 10 shows metal scrap, lumber, a dog house, and other debris on site. Photo # 11, taken toward the north, reveals more waste littering the property, including a pile of corn cobs, metal, empty paint cans, and other debris. Mr. Danielson stated that the metal seen on the left side of the photo was going to be used for a project. I told Mr. Danielson to store the needed metal neatly inside a shed/garage for its future use.

Photo # 12 was taken of cardboard, paper, signs, and other debris strewn on the property. Photo # 13 shows cups, empty paint cans, cloth, cardboard, plastic, etc. littering the property. Photos # 14 and # 15 show additional bags of household waste and garbage stored on site and spilling out. Photo # 16 depicts more litter on the ground.

We proceeded to the rest of the property located on the west side of 1675 East Street. Photo # 17 was taken of more bags of household waste dumped on the property from off-site. Photo # 18 was taken toward the west of litter strewn on the ground including plastic, containers, and paper.

Photos # 19 and # 20 depict more dumped bags of household waste covering the ground in this forested area. Photo # 21 shows the litter trailing off farther into the woods.

We left the site at approximately 11:20 am. The Steve Danielson property was found to remain in apparent violation of the following during this inspection:

1. Section 21(a) of the Act: Cause Or Allow Open Dumping.
2. Section 21(d)(1) of the Act: Conduct Any Waste-Storage, Waste-Treatment, Or Waste-Disposal Operation: Without A Permit
3. Section 21(d)(2) of the Act: Conduct Any Waste-Storage, Waste-Treatment, Or Waste-Disposal Operation: In Violation of Any Regulations or Standards Adopted by the Board.
4. Section 21(e) of the Act: Dispose, Treat, Store, Or Abandon Any Waste, Or Transport Any Waste Into the State At/To Sites Not Meeting Requirements of the Act.
5. Sections 21(p)(1) of the Act: Cause Or Allow The Open Dumping of Any Waste In A Manner Which Results In Any Of The Following Occurrences At The Dump Site: (1) Litter
6. Section 812.101(a) of the 35 Illinois Administrative Code Requirements Subtitle G: Failure To Submit An Application For A Permit To Develop And Operate A Landfill.
