

ILLINOIS POLLUTION CONTROL BOARD  
October 4, 1978

IN THE MATTER OF: )  
 )  
PROPOSED EXCEPTION TO )  
CHAPTER 6: PUBLIC WATER ) R78-8  
SUPPLY REGULATION: )  
RULE 305, CHLORINATION )

ORDER OF THE BOARD (by Mr. Young):

On September 12, 1978, the Environmental Protection Agency filed a Motion for a More Adequate Statement concerning Regulatory Proceeding R78-8 filed August 17, 1978, a Petition to amend the chlorination requirements of Rule 305 in Chapter 6: Public Water Supplies.

According to the Agency, the Village of Orangeville submitted a Petition which failed to meet the requirements of Procedural Rule 204(a) in that the Petition made mere conclusory allegations without reference to scientific studies or provide an adequate statement of supporting reasons.

Having reviewed this matter, the Board finds that the Petitioner contains conclusory statements as alleged by the Agency, but this is not sufficient to make the Petition defective. It is not the intention of the Board or its Procedural Rules to require the Petitioner to plead its evidence. Petitioner will be required to come forward with evidence and expert testimony to support the contentions alleged in its Petition at the appropriate time during the hearings.

Since the Petition is sufficient in its face, the Board will hereby dismiss the Agency's Motion. Hearings will be set and submitted for publication in the Environmental Register within seven days after this Order.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 4<sup>th</sup> day of October, 1978 by a vote of 5-0.
