Respondent.)	

ORDER OF THE BOARD (by Mr. Dumelle):

On March 22, 1979 Petitioner moved the Board to modify its Order in this case dated April 13, 1978 and requested an extension of the variance granted in that Order. Petitioner requested an extension until October 31, 1980 to complete the construction needed to comply with the former iron and manganese standards of Rule 304 B 4 of Chapter 6: Public Water Supplies.

On March 1, 1979 the Board adopted R77-13 which contained amendments to Rule 304 B 4 of Chapter 6 which relaxed the standards for iron and manganese and extended the date for compliance with these standards until July 1, 1981. The Board's regulatory decision to extend the compliance date has eliminated the need for any further relief in this matter and has nullified the terms and conditions of the Order entered in this matter on April 13, 1978. Consequently the motion for modification is hereby denied and the petition for an extension is hereby dismissed.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 26th day of April, 1979 by a vote of 4-0

Christan L. Moffett, Clerk
Illinois Pollution Control Board
