ORDER OF THE BOARD (by R. Flemal):

On July 10, 1990, the City moved for a two year extension of the variance granted by the Board on January 8, 1987. A three year variance was granted from 35 Ill. Adm. Code 602.105(a) Standards of Issuance and 602.106(b) Restricted Status as these rules relate to exceedances from the combined radium limitation of 604.301(a) and the gross alpha particle activity limitation of 604.301(b). This variance expired by its terms on January 8, 1990.

The motion for extension is denied on procedural grounds. Given the fact that this variance has expired, and further that citizens had filed written objections to the original petition, the merits of the City's request would be best considered by the Board in the context of a new petition for variance. The Board declines to reopen this case.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 19<sup>th</sup> day of July, 1990, by a vote of 5-0.
