v.)	PCB 74-315
)	
ENVIRONMENTAL PROTECTION AGENCY,)	
)	
Respondent.)	

ORDER OF THE BOARD (by Mr. Zeitlin):

The Opinion and Order of the Board in this matter was entered on December 4, 1975. On January 14, 1976, the Board granted, in part, a motion by Petitioner to amend certain language in that Opinion, to read,

"This effort will involve taking three of the end presses out of operation . . ." (changed language emphasized).

At that time, the Board denied Petitioner's motion to add yet additional language. Petitioner's assertion then that such language would better represent the agreement of the parties in the case did not include a showing that the Respondent Environmental Protection Agency assented to the change. However, on February 6, 1976, Respondent has itself moved the change originally asked by Petitioner.

Because the requested additional language acts to add further requirements to Petitioner's responsibility under the Stipulation, we agree to the proposed amendment of our December 4, 1976, Opinion and Order. The relevant portion, (Opinion at 4), shall now read,

"This effort will involve taking three of the end presses out of operation for approximately eight weeks, completely stripping the machine of its auxiliary lines, installing new vibration isolaters, and applying noise-reducing materials. This program should be extended through May 21, 1976. If successful, this program will be extended to the Company's remaining '314' automatic end presses at the the Chicago plant when those presses are taken out of production for maintenance and re-fitting." (Additional language emphasized.)

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 8th day of April, 1976, by a vote of 5-0.

Christan L. Moffett
Christan L. Moffett, Clerk
Illinois Pollution Control Board
