Definitions and General Provisions (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R08-12

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R08-12 to accommodate any federal amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2007 through June 30, 2007. At this time, the Board is not aware of any federal amendments to the federal definition of VOM that occurred during this update period.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2008 REGULATORY AGENDA

The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2008. The Board will then propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R08-12, as necessary and appropriate.

Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R08-12, the earliest federal amendments in the applicable period occurred on July 1, 2007. The due date for Board adoption would be July 1, 2008.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2008, after which time the Board will propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be July 1, 2008, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-April 2008. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2008 REGULATORY AGENDA

to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

F) Agency contact person for information:

G) Related rulemakings and other pertinent information:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed

NITROGEN OXIDES EMISSIONS (35 Ill. Adm. Code 217)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is currently developing amendments for proposal to the Board to address part of the State's Clean Air Act obligations to meet nitrogen oxides (NO_x) reasonably available control technology requirements (RACT), reasonable further progress (RFP), and attainment demonstration requirements for the new 8-hour ozone and PM_{2.5} nonattainment areas. Illinois has two 8-hour ozone and PM_{2.5} nonattainment areas, greater Chicago and Metro-East/St. Louis. NO_x is one of the precursors to the formation of both ozone and PM_{2.5}. Control of NO_x emissions from the following types of units may be included in the proposal: ICI boilers less than 250 mmBtu, electric generating less than 25 megawatts, cement kilns, lime kilns, glass melting furnaces, iron and steel plants, and aluminum melting furnaces. In addition, the proposal includes conforming amendments for Part 211, concerning applicable definitions. The requirements are anticipated to apply statewide.

B) Statutory authority:

Implementing and authorized by Sections 10, 27 and 28.5 of the Illinois Environmental Protection Act [415 ILCS 5/10, 27 and 28.5].

C) Scheduled meeting/hearing dates:

The Agency has stated that it anticipates submitting its rulemaking proposal to the Board in the Spring or Summer of 2008. Once a proposal

REGIONAL HAZE (35 Ill. Adm. Code 226)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is currently developing amendments for proposal to the Board. This proposal would address the State's obligation to meet the requirements of the Clean Air Act (CAA) for Regional Haze, specifically the requirement for Best Available Regional Haze (BART). Section 169A of the CAA requires that each major source in existence in 1977, but not in operation before 1962, that may reasonably anticipated to cause or contribute to any impairment of visibility in any Class I area shall procure, install, and operate BART. Major sources are defined as ones that have the potential to emit 250 tons per year or more of a visibility impairing pollutant in one of 26 specified categories, including but not limited to petroleum refineries, lime plants, steel mills, and fossil-fuel fired steam electric plants greater than 250 mmBtu. USEPA has identified sulfur dioxide, NO_x, and primary particulate matter (PM) as visibility impairing pollutants. This rule will affect BART applicable emission units statewide.

Nitrogen Oxides Emissions (35 Ill. Adm. Code 217)

1) Rulemaking: R06-22

A) Description:

On January 19, 2006, the Board received a rulemaking proposal submitted by the Illinois Environmental Protection Agency (Agency) pursuant to Section 27 and 28 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/27 and 28 (2004)). Included in this proposal are amendments to the regulations governing Nitrogen Oxide (NO_x) emissions found at 35 Ill. Adm. Code Part 217, Subparts A, T, U, and W.

The amendments propose to update Part 217 to reflect recent amendments made by the United States Environmental Protection Agency (USEPA) to the Code of Federal Regulations concerning several test methods and procedures, and by the Illinois General Assembly to Section 9.9 of the Act concerning the sale of NO_x allowances and the repeal of the stay provisions. The Agency proposes amendments intended to ensure that the NO_x budgets for both the Electrical Generating Units (EGU) and the non-EGUs are not reduced by low-emitters in a way that was not anticipated at the time the rules were originally adopted by the Board. Finally, the Agency proposes clarifications to the dates and timing of allocations designed to simplify the administration of the NO_x Trading Program. The

Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9). The proposal filed by the Illinois Environmental Protection Agency (Agency) on October 26, 2007, seeks to amend the Board's water quality standards for the "Chicago Area Water Way System" (CAWS) and the Lower Des Plaines River. On November 15, 2007, after the response time to the motion had run out, the Board granted the Agency's request to hold the hearings in this rulemaking in Chicago and Joliet.

In this rulemaking, the Agency proposes amendments to update the designated uses and criteria necessary to protect the uses for the waters currently designated for Secondary Contact and Indigenous Aquatic Life Uses. These specific designations were for those waters not suited for General Use activities. All waters in Illinois that carry these designations are water bodies that were a part of the engineering effort that reversed the flow of the Chicago River and are known as the CAWS and the Lower Des Plaines River. In 2000 and 2002, the Agency began pilot programs for the Lower Des Plaines River and CAWS to develop use attainability analysis (UAA) for these waters. These proposed rule changes incorporate the findings of the pilot programs.

Water Use Designations and Site Specific Water Quality Standards (35 Ill. Adm. Code 303)

1) Rulemaking: R07-21

A) Description:

On May 30, 2007, the City of Joliet (Joliet) filed a proposal for a site-specific rulemaking with the Board. Joliet's proposal seeks to amend the general use water quality standards for copper and fluoride for the portion of Hickory Creek downstream from the Joliet Street Bridge in Joliet to the juncture with the Des Plaines River. The requested monthly limits are 0.15 mg/l for copper and 3.5 mg/l for fluoride.

This petition is a follow-up to a March 30, 2007 consent decree entered in Will County Circuit Court case between Joliet, the Illinois Environmental Protection Agency (Agency), and the Attorney General's Office. The court decree had set an interim copper limit (0.1156 daily max) expiring on May 31, 2007 and interim fluoride limit (3.5 mg/l daily max) with no expiration date.

pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R08-11 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that the USEPA may have made in the period July 1, 2007 through December 31, 2007. At this time, the Board is not aware of any federal amendments to the federal wastewater pretreatment regulations that occurred during this update period.

The Board will verify the existence of any federal actions that may affect the text of the federal wastewater pretreatment regulations and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2008. The Board will then propose corresponding amendments to the Illinois wastewater pretreatment regulations using the identical-in-substance procedure under docket R08-11, as necessary and appropriate.

Section 13.3 of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R08-11, if the earliest federal amendments in the applicable period occurred on July 1, 2007, the due date for Board adoption would be July 1, 2008.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2008, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be July 1, 2008, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-April 2008. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois wastewater pretreatment rules is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

The Board has reserved docket number R08-13 to accommodate any amendments to the SDWA national primary drinking water standards, 40 CFR 141 through 143, that the United States Environmental Protection Agency (USEPA) may make in the period July 1, 2007 through December 31, 2007. At this time, the Board is aware of one set of federal amendments to the federal national primary drinking water regulations that occurred during this update period. The amendments are described as follows:

71 Fed. Reg. 65574 (October 10, 2007)

USEPA amended the lead and copper rule to strengthen its implementation in the areas of monitoring, treatment processes, public education, customer awareness, and lead service line replacement. Compliance by regulated entities is due no later than December 10, 2009.

The Board will verify the existence of any other federal actions that may affect the text of the federal primary drinking water standards and the Board action required in response to each in coming weeks, by about mid-February 2008. The Board will then propose corresponding amendments to the Illinois SDWA primary drinking water regulations using the identical-in-substance procedure or dismiss docket R08-13, as necessary and appropriate.

Section 17.5 mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. 1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) continues to evaluate contaminants of concern that have been commonly detected in Illinois' groundwater for inclusion in 35 Ill. Adm. Code 620. One such constituent is perchlorate. This rocket fuel component has been discovered in Illinois' groundwater, and its occurrence in Illinois is being further evaluated. Another constituent that may be considered for inclusion in the rules is ammonia. While ammonia is not a health concern at the concentrations at which it has been reported, the greater health risk is the conversion of ammonia to nitrite and nitrate within a water distribution system. In addition, the Agency has evaluated contaminants commonly detected in groundwater in association with solid waste and Resource Conservation and Recovery Act (RCRA) sites. Groundwater standards are being developed for approximately 48 contaminants that have been commonly detected in groundwater at these sites where cleanup objectives have already been developed under the Tiered Approach to Corrective Action Objectives (TACO)(35 Ill. Adm. Code 742). Finally, one constituent has had new Maximum Contaminant Levels (MCLs) adopted. Arsenic occurs with some frequency in Illinois' groundwater. Therefore, a groundwater standard amendment consistent with the MCL will be proposed.

1) Rulemaking: Presently reserved docket number R08-14

A) Description:

Section 13(c) of the Environmental Protection Act [415 ILCS 5/13(c)] mandates that the Board update the Illinois underground injection control (UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R08-14 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148, during the period July 1, 2007 through December 31, 2007. At this time, the Board is not aware of any federal amendments to the federal UIC rules that occurred during this update period.

The Board will verify the existence of any federal actions that affect the UIC regulations and the Board action required in response to each in coming weeks, by about mid-February 2008. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R08-14, as necessary and appropriate.

Section 13(c) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R08-14, if the earliest federal amendments in the applicable period were assumed to have occurred on

ILLINOIS REGISTER

the first day of the update period, on July 1, 2007, the due date for Board adoption would be July 1, 2008.

B) Statutory authority:

If the due date for Board adoption of amendments in this docket were assumed to be July 1, 2008, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-April 2008. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

A) Description:

Section 22.4(a) of the Environmental Protection Act [415 ILCS 5/22.4(a)] mandates that the Board update the Illinois rules implementing Subtitle C of the federal Resource Conservation and Recovery Act (RCRA) to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle C regulations.

The Board reserved docket number R07-5 to accommodate amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period January 1, 2006 through June 30,

2006. During this period there was one set of federal amendments to the federal RCRA Subtitle C hazardous waste regulations:

71 Fed. Reg. 16862 (April 4, 2006)

USEPA amended various provisions of the hazardous waste regulations to reduce the paperwork burden imposed by the rules. Some of the reduced requirements apply only to members of USEPA's Environmental Performance Track Program. The affected rules include hazardous waste management facility standards and aspects of the permitting requirements and land disposal restrictions.

The Board reserved docket number R07-14 to accommodate amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period July 1, 2006 through December 31, 2006. During this period there were two sets of federal amendments to the federal RCRA Subtitle C hazardous waste regulations:

71 Fed. Reg. 40254 (July 14, 2006)

USEPA adopted a number of corrections to various of the hazardous waste and used oil management regulations.

71 Fed. Reg. 42928 (July 28, 2006)

USEPA amended the definition of hazardous waste to exclude cathode ray tubes (CRTs) that are managed within specified conditions. USEPA intends to encourage the reuse and recycling of used CRTs and glass from CRTs.

On January 26, 2007, the Board adopted an order to consolidate these identical in substance RCRA rulemakings. In that order the Board also found it necessary to extend the one-year period for completion of these amendments. In a Notice of Public Information, required under Section 7.2(b) of the Illinois Environmental Protection Act (Act), 415 ILCS 5/7.2(b) (2006), the Board explained that it has extended until October 1, 2007, the deadline for adoption and filing of rules in the consolidated identical in substance docket. On September 20, 2007, the Board again extended the deadline for completion of amendments in this consolidated docket. The final date for Board completion of the amendments was extended from October 1, 2007 to April 14, 2008.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.40(a) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.40(a) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2008, after which time the Board will propose any amendments to the Illinois RCRA Subtitle D MSWLF rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be July 1, 2008, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-April 2008. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit that engages in the land disposal of municipal solid waste.

STATION PERMITS (New Part)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is working on a proposal to add new rules to the Board's waste regulations. Municipal waste transfer stations currently are regulated under 35 Ill. Adm. Code 807. The Part 807 rules were developed primarily for solid waste landfills. As applied to transfer stations, they are very general with many of the specific requirements for transfer stations imposed through permit conditions under Section 807.206. Transfer stations are increasing in number and importance in Illinois' waste management system. In

addition, the United States Environmental Protection Agency published in June 2002 “Waste Transfer Stations: A Manual for Decision-Making” (EPA530-R-02-002), guidance developed to “promote the use of best practices in transfer station siting, design and operation to maximize facilities’ effectiveness while minimizing their impact on the community.” The Agency is developing new Parts that will provide more specific requirements for the design, construction, operation and closure of municipal waste transfer stations as well as procedures for obtaining permits. Included with municipal waste transfer stations accepting garbage and general household and commercial waste are those transfer stations accepting exclusively construction and demolition debris and those used exclusively for landscape waste.

B) Statutory authority:

These rules will be proposed pursuant to Sections 4(i), 21(d), 22, 27 and 28 of the Environmental Protection Act [415 ILCS 5/4(i), 21(d), 22, 27, 28].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings in accordance with Sections 27 and 28 of the Act [415 ILCS 5/27, 28].

D) Date Agency anticipates First Notice:

The Agency may submit a proposal to the Board as soon as the Spring or Summer of 2008, after which the Board will cause publication of a Notice of Proposed Rules in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

Generally, small businesses, small municipalities and not-for-profit corporations will not be affected by the proposal unless they receive municipal waste for transfer prior to treatment or disposal. For those that do, the substantive changes in requirements for design, construction and operation are expected to be minimal with many existing transfer stations

already in compliance with most of the standards and requirements. However, there may be some expense for upgrading existing transfer stations.
