RECOMMENDATION

NOW COMES the ILLINOIS ENVIRONMENTAL PROTECTION AGENCY ("Illinois EPA"), through its attorneys, and pursuant to 35 Ill. Adm. Code 125.204 of the ILLINOIS POLLUTION CONTROL BOARD'S ("Board") procedural regulations, files the Illinois EPA's Recommendation in the above-referenced request for tax certification of pollution control facilities. The Illinois EPA recommends a **grant** of the applicant's request. In support thereof, the Illinois EPA states as follows:

1. On December 22, 2006, the Illinois EPA received a request and supporting information from FLINT HILLS RESOURCES, LP ("Flint Hills") concerning the proposed tax certification of certain air emission sources and/or equipment associated with the company's chemical manufacturing plant. The plant is located near Joliet in Will County, Illinois. A copy of the relevant portions of the application is attached hereto. **[Exhibit A]**.

2. The address of the chemical manufacturing facility is:

Flint Hills Resources, LP
23425 Amoco Road
Channahon, Illinois 60410

3. The pollution control equipment or facilities involved in this request consist of a Scrubber unit, designated by the company as KT-110. As part of chemical manufacturing operations, the company maintains two intermediate product silos

associated with the manufacture of isophthalic acid. The construction and installation of the Scrubber unit will control particulate matter (“PM”) and volatile organic material (“VOM”) emissions from the existing product silos, which will be vented from existing vent collectors to the new scrubber. *See generally*, **Exhibit A** at pages 1 and 2 of APC Form 151. The Scrubber unit is designed to achieve at least ninety-five percent control efficiency for VOM emissions and is generally required to be operated at all times when the intermediate product silos are in operation. *See*, **Exhibit A** at page 1 of attached Construction Permit No. 05060069.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2006), defines “pollution control facilities” as:

“any system, method, construction, device or appliance appurtenant thereto, or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution... or (b) treating, pretreating, modifying or disposing of any potential solid, liquid, gaseous pollutant which if released without treatment, pretreatment, modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.”

5. Pollution control facilities are entitled to preferential tax treatment, as provided by 35 ILCS 200/11-5 (2006).

6. Based on information in the application and the underlying purpose of the Scrubber unit to prevent, eliminate or reduce air pollution, it is the Illinois EPA’s engineering judgment that the described project and/or equipment may be considered “pollution control facilities” in accordance with the statutory definition and consistent with the Board’s regulations at 35 Ill. Adm. Code 125.200. **[Exhibit B]**.

7. Because the Scrubber unit will satisfy the aforementioned criteria, the Illinois EPA recommends that the Board **grant** the applicant's requested tax certification.

Respectfully submitted by,

ILLINOIS ENVIRONMENTAL PROTECTION
AGENCY

		d. PRODUCTIVE NET ANNUAL INCOME OF CONTROL FACILITY:	\$	
		e. PERCENTAGE CONTROL FACILITY BEARS TO WHOLE FACILITY VALUE:	%	
	Sec. F SIGNATURE	The following information is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge, is true and correct. The facilities claimed herein are "pollution control facilities" as defined in Section 11-10 of the Illinois Property Tax Code.		
		 Signature _____ Title <u>VP, Manufacturing</u>		
Sec. G INSTRUCTIONS	INSTRUCTIONS FOR COMPILING AND FILING APPLICATION			
	General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.			
	Sec. A	Information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.		
	Sec. B	Self-explanatory. Submit copies of all permits issued by local pollution control agencies. (e.g. MSD Construction Permit)		
	Sec. C	Refers to manufacturing processes or materials on which pollution control facility is used.		
	Sec. D	Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the <u>pollution control facility</u> . Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an <u>average</u> analysis of the influent and effluent of the control facility stating the collection efficiency.		
	Sec. E	List air contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) – Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) – Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) – If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) – State the date which the pollution control facility was first placed in service and operated. If not, explain. Item (5) – This information is essential to the certification and assessment actions. This accounting data must be completed to activate project review prior to certification by this Agency.		
	Sec. F	Self-explanatory. Signature must be a corporate authorized signature.

CONSTRUCTION PERMIT

PERMITTEE

Flint Hills Resources, LP - Joliet Facility
Attn: Jim Basil
P.O. Box 941
Joliet, Illinois 60434

Application No.: 05060062

I.D. No.: 197800ABZ

Applicant's Designation:

Date Received: June 24, 2005

Subject: Scrubber

Date Issued: August 26, 2005

Location: 23425 Amoco Road, Channahon

Permit is hereby granted to the above-designated Permittee to CONSTRUCT emission source(s) and/or air pollution control equipment consisting of the installation of a scrubber to control two existing IPA Product Silos (KF-110 and 111) as described in the above-referenced application. This Permit is subject to standard conditions attached hereto and the following special condition(s):

- 1a. This permit is issued for construction and operation of a scrubber to comply with applicable requirements, including requirements established for the project at the IPA facility addressed in Construction Permits 96010057 and related requirements in the facility's CAAPP permit 96010025, which restrict emissions of organic material and volatile organic materials (VOM) from the existing units.
- b. This permit is issued based upon a minimal increase in particulate matter (PM) attributable to the operation of the scrubber.
- c. This permit does not relax or revise applicable requirements in the source's CAAPP permit, except to allow the scrubber to be used to control emissions from the identified existing emission units addressed in this permit.
- 2a. The scrubber shall be designed to achieve at least 95% destruction efficiency for VOM, consistent with representation in the application.
- b. The scrubber shall be operated at all times when the associated emission units are in operation, provided however that the Permittee may bypass the scrubber when product is not being loaded to the existing units, as needed for purposes of maintenance and repair of the scrubber, the existing units, or other related units in the IPA facility, if all applicable emission limits would still be met.
- c. The Permittee shall, in accordance with the manufacturer(s) and/or vendor(s) recommendations, or written procedures developed and maintained by the Permittee, perform periodic maintenance on the Scrubber covered under this permit such that the scrubber be kept in proper working condition.

Page 2

- 3a. Within 180 days of initial startup, the VOM emissions of the existing IPA silos and VOM control efficiency of the scrubber shall be measured during conditions which are representative of maximum emissions.
- b. The following methods and procedures shall be used for testing of emissions, unless the Illinois EPA approves use of other USEPA Reference method: Refer to 40 CFR 60, Appendix A, for USEPA test methods.

Location of Sample Points	USEPA Method 1
Gas Flow and Velocity	USEPA Method 2
Flue Gas Weight	USEPA Method 3
Moisture	USEPA Method 4
Volatile Organic Material	USEAP Method 18
Volatile Organic Material	USEPA Method 25, 25A if outlet VOM cont. < 50 ppmv as C Non CH ₄

- c. The Illinois EPA shall be notified prior to these tests to enable the Illinois EPA to observe these tests. Notification of the expected date of testing shall be submitted a minimum of thirty days prior to the expected date. Notification of the actual date and expected time of testing shall be submitted a minimum of five working days prior to the actual date of the test. The Illinois EPA may at its discretion accept notifications with shorter advance notice provided that the Illinois EPA will not accept such notifications if it interferes with the Illinois EPA's ability to observe testing.
- d. Copies of the Final Report(s) for these tests shall be submitted to the Illinois EPA within 14 days after the test results are compiled and finalized. The Final Report shall include as a minimum:
- i. A summary of results.
 - ii. General information.
 - iii. Description of test method(s), including description of sampling points, sampling train, analysis equipment, and test schedule.
 - iv. Detailed description of test conditions, including:
 - A. Process information, i.e., mode(s) of operation, process rate, e.g. fuel or raw material consumption; and
 - B. Control equipment information, i.e., equipment condition and operating parameters during testing.
 - v. Data and calculations, including copies of all raw data sheets and records of laboratory analyses, sample calculations, and data on equipment calibration.

Page 3

4. The Permittee shall monitor (i.e., measure and automatically record) the following information for the scrubber:
 - a. Scrubbant flow rate (gallons/minute); and
 - b. PH of scrubbant.
- 5a. The Permittee shall maintain the following records:
 - i. IPA production (tons/mo and tons/yr);
 - ii. Type and amount of additive (caustic), if any, used in the scrubbant (daily);
 - iii. Flow rate make-up water for scrubbant (4 times/shift); and
 - iv. Flow rate of scrubbant additive (caustic), if any (4 times/shift).
- b. The Permittee shall maintain records for each period when the scrubber is not in operation with description, duration, and explanation of the period.
- c. The Permittee shall maintain a maintenance and repair log for the capture system, scrubber, and monitoring devices detailing all routine and non-routine maintenance performed including dates and duration of any outages.
6. All records required by this permit shall be maintained for five years and be made available to the Illinois EPA for inspection and copying upon request.
- 7a. Two copies of required notifications and reports shall be sent to:

Illinois Environmental Protection Agency
Division of Air Pollution Control
Compliance Section (#40)
P.O. Box 19276
Springfield, Illinois 62794-9276

and one copy shall be sent to the Illinois EPA's local regional office of the Field Operation Section, Division of Air Pollution Control.

Illinois Environmental Protection Agency
Division of Air Pollution Control
9511 West Harrison
Des Plaines, Illinois 60016
- b. One copy of each test notification or final test reports shall be sent to the Illinois EPA's source monitoring unit at the following address unless otherwise indicated:

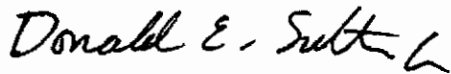

Page 4

Illinois Environmental Protection Agency
Division of Air Pollution Control
Source Monitoring Unit 9511
9511 West Harrison
Des Plaines, Illinois 60016

8. This permit allows the operation of the scrubber and associated emission units until a revised CAAPP permit is issued.

Please note that the Permittee should apply to amend its CAAPP permit to include the scrubber.

If you have any questions on this, please call Eric Jones at 217/782-2113.

 ENVIRONMENTAL PROTECTION AGENCY
 DIVISION OF AIR POLLUTION CONTROL
 P. O. BOX 19506
 SPRINGFIELD, ILLINOIS 62794-9506

**STANDARD CONDITIONS FOR CONSTRUCTION/DEVELOPMENT PERMITS
 ISSUED BY THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY**

July 1, 1985

The Illinois Environmental Protection Act (Illinois Revised Statutes, Chapter 111-1/2, Section 1039) authorizes the Environmental Protection Agency to impose conditions on permits which it issues.

The following conditions are applicable unless superseded by special condition(s).

1. Unless this permit has been extended or it has been voided by a newly issued permit, this permit will expire one year from the date of issuance, unless a continuous program of construction or development on this project has started by such time.
2. The construction or development covered by this permit shall be done in compliance with applicable provisions of the Illinois Environmental Protection Act and Regulations adopted by the Illinois Pollution Control Board.
3. There shall be no deviations from the approved plans and specifications unless a written request for modification, along with plans and specifications as required, shall have been submitted to the Agency and a supplemental written permit issued.
4. The permittee shall allow any duly authorized agent of the Agency upon the presentation of credentials, at reasonable times:
 - a. to enter the permittee's property where actual or potential effluent, emission or noise sources are located or where any activity is to be conducted pursuant to this permit,
 - b. to have access to and to copy any records required to be kept under the terms and conditions of this permit,
 - c. to inspect, including during any hours of operation of equipment constructed or operated under this permit, such equipment and any equipment required to be kept, used, operated, calibrated and maintained under this permit,
 - d. to obtain and remove samples of any discharge or emissions of pollutants, and
 - e. to enter and utilize any photographic, recording, testing, monitoring or other equipment for the purpose of preserving, testing, monitoring, or recording any activity, discharge, or emission authorized by this permit.
5. The issuance of this permit:
 - a. shall not be considered as in any manner affecting the title of the premises upon which the permitted facilities are to be located,
 - b. does not release the permittee from any liability for damage to person or property caused by or resulting from the construction, maintenance, or operation of the proposed facilities,
 - c. does not release the permittee from compliance with other applicable statutes and regulations of the United States, of the State of Illinois, or with applicable local laws, ordinances and regulations,
 - d. does not take into consideration or attest to the structural stability of any units or parts of the project, and

- e. in no manner implies or suggests that the Agency (or its officers, agents or employees) assumes any liability, directly or indirectly, for any loss due to damage, installation, maintenance, or operation of the proposed equipment or facility.
- 6. a. Unless a joint construction/operation permit has been issued, a permit for operation shall be obtained from the Agency before the equipment covered by this permit is placed into operation.
- b. For purposes of shakedown and testing, unless otherwise specified by a special permit condition, the equipment covered under this permit may be operated for a period not to exceed thirty (30) days.
- 7. The Agency may file a complaint with the Board for modification, suspension or revocation of a permit:
 - a. upon discovery that the permit application contained misrepresentations, misinformation or false statements or that all relevant facts were not disclosed, or
 - b. upon finding that any standard or special conditions have been violated, or
 - c. upon any violations of the Environmental Protection Act or any regulation effective thereunder as a result of the construction or development authorized by this permit.

Memorandum

Technical Recommendation for Tax Certification Approval

Date: September 05, 2007
To: Robb Layman
From: Ed Bakowski *EB*
Subject: Flint Hill Resources, LP TC-06-12-22A

This Agency received a request on December 22, 2006 from Flint Hill Resources, LP for an Illinois EPA recommendation regarding tax certification of air pollution control facilities pursuant to 35 Ill. Adm. Code 125.204. I offer the following recommendation.

The air pollution control facilities in this request include the following:

Scrubber whose primary purpose is to control PM and VOM emissions from two existing IPA Intermediate Product Silos. Because the primary purpose of this unit is to reduce or eliminate air pollution, it is certified as a pollution control facility.

This facility is located at 23425 Amoco Road, Channahon, Will County
The property identification number is 10-10-200-002-0000

Based on the information included in this submittal, it is my engineering judgement that the proposed facility may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing air pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. Therefore, it is my recommendation that the Board issue the requested tax Certification for this facility.

— *Exhibit B*
