

ILLINOIS POLLUTION CONTROL BOARD
January 6, 1977

IN THE MATTER OF)
MOTOR RACING NOISE) R 75-11
REGULATIONS)

INTERIM ORDER OF THE BOARD (by Mr. Goodman):

On June 9, 1976, the Environmental Protection Agency (Agency) submitted its most recent proposal in R 75-11, a proposal to regulate motor racing noise in Illinois. The Board has examined the evidence presented thus far in R 75-11 and today proposes a revision to the Agency's June 9 proposal. Based upon economic data presented thus far; public concern expressed as to the potential detrimental effects the Agency's proposal could have on the sport of motor racing, and technical considerations, the Board proposes to grant all existing motor racing facilities an extra three-year delay in compliance with the muffler requirements and dB(A) reduction schedule over and above the compliance schedule incorporated in the Agency's proposal.

The Board notes that its proposal is not intended to affect any other section of the Agency's proposal, including the 10:30 p.m. termination of motor racing activities for which no muffler is required.

The Board's proposed revision of the Agency's proposal is hereby authorized for hearing. The Board urges the public, the Agency, and the motor racing industry to participate in hearings held on its proposal.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Interim Order was adopted on the 6th day of January, 1977 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
