ORDER OF THE BOARD (by Mr. Goodman):

On February 10, 1977, Interlake, Inc., submitted a Petition for Variance from Rules 104, 202(b), 203(d)(2), and 206(d) of Chapter 2 as they apply to Petitioner's sinter plant operations in Chicago, Illinois. Rule 401(b) of the Board's Procedural Rules requires that variance petitions include an estimate of the quantity of contaminants discharged and a detailed description and timetable of the program to be undertaken to achieve compliance. Interlake has not provided the Board with information on the amount of particulates and carbon monoxide it emits. Furthermore, Interlake has submitted no compliance plan for reducing its particulate and carbon monoxide emissions to the required levels. In both respects Interlake's petition is deficient.

Interlake shall amend its petition within 35 days of the date of this Order to supply the needed information. Interlake shall file a waiver of the 90-day period set by statute such that the 90-day period shall begin with the filing of the amended petition. Failure to timely file said amended petition shall subject the petition to dismissal for inadequacy.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 17<sup>th</sup> day of February, 1977 by a vote of 4-0.
