RE: Docket #R01-10

Dear Ms. Gunn:

I would like to express my opinion of the proposed peaker plants for the Zion Benton Township area. There are many of us who have lived our entire life in the Zion Benton Township area, and have endured the potential health and environmental risks associated with the Zion Nuclear power plant and its spent rods below ground. We also have the BFI waste dump to the west.

It is my opinion the Zion City Council should explore alterative options to obtain tax base revenue, as well as jobs for the community. I say NO to building power plants of any kind in our township.

There must be cleaner, safer technology available to supply the people of this State energy.

Sincerely,

Curt W. Peters
