1) Rulemaking: Docket Number R04-8

A) Description:

The Board is preparing a rulemaking to amend its procedural rules to allow for electronic filings in all Board proceedings through the Board's "Clerk's Office On-Line" (COOL). The rules will address electronic filings and payment of filing fees.

B) Statutory authority:

Implementing Sections 5, 7.1, 7.2, 26, 27, 28, 29, 31, 32, 33, 35, 36, 37, 38, 40, 40.1, 40.2, 41, and 58.7 of the Environmental Protection Act (Act) [415 ILCS 5/5, 7.1, 7.2, 26, 27, 28, 29, 31, 32, 33, 35, 36, 37, 38, 40, 40.1, 40.2, 41, and 58.7] and authorized by Sections 26 and 27 of the Act [415 ILCS 5/26 and 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. Section 28 of the Act [415 ILCS 5/28] does not require public hearings concerning procedural rules. The Board therefore does not currently plan to schedule hearings in this rulemaking. The Board would conduct hearings, however, if the level of public interest indicates that they are desirable.

D) Date agency anticipates First Notice:

The Board anticipates that it may propose amendments for first notice publication in the *Illinois Register* in the Spring or Summer of 2009.

E) Effect on small business, small municipalities, or not-for-profit corporation:

There may be an effect on any small business, small municipality, or not-for-profit corporation that appears before the Board in any type of proceeding. Proceedings before the Board include enforcement complaint actions, administrative citation actions, rulemaking proceedings, variance proceedings, adjusted standard proceedings, site-specific rulemaking proceedings, permit appeals, property tax certifications, underground storage tank appeals, pollution control facility siting appeals, and any other actions provided by law.

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (Agency) is in the process of developing a rulemaking streamlining the Board's regulations that affect the permitting of synthetic minor sources and non-major sources. The proposal would address extending the duration of federally enforceable state operating permits (FESOPs) from 5 to 10 years and to also establish a permit-by-rule in order to provide a simple, streamlined means to ensure that small sources are excluded from the Clean Air Act Permit Program (CAAPP).

B) Statutory authority:

Implementing Sections 9 and 10 and authorized by Section 27 of the Environmental Protection Act [415 ILCS 5/9, 10 and 27].

C) Scheduled meeting/hearing dates:

The Agency has stated that it anticipates filing a rulemaking proposal with the Board in the Fall of 2009. No meetings or hearings are scheduled at this time. e) Part (Heading and Code Citation): Definitions and General Provisions (35 Ill. Adm. Code 211)

1) Rulemaking: Docket Number R10-7

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R10-7 to accommodate any federal amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2009 through June 30, 2009. At this time, the Board is aware of one set of amendments to the federal definition of VOM that occurred during this update period. That action is described as follows:

January 21, 2009 (74 Fed. Reg. 3437)

USEPA adopted two new exemptions from the definition of VOM:

Propylene carbonate(PC) (IUPAC name 4-methyl-1,3-dioxolan-2-one; also called cyclic propylene carbonate, carbonic acid propylene ester, cyclic 1,2-propylene carbonate, propylene glycol cyclic carbonate, 1,2-propanediol carbonate, and 4-methyl-2-oxo-1,3-dioxolane; CAS no. 108-32-7); and

Dimethyl carbonate (DMC) (IUPAC name; also called methyl carbonate, and carbonic acid dimethyl ester; CAS no. 616-38-6.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

PC is used as a high-permittivity component in lithium batteries (not lithium-ion batteries); as a solvent in adhesives, paint strippers, synthetic fibers and polymers, and cosmetics; and as a plasticizer.

DMC is used as a solvent in paints and coatings, as a chemical reagent for methylation and carbonylation reactions, and as a fuel additive.

The Board will verify the existence of any other federal actions that may affect the text of the federal primary drinking water standards, and the Board action required in response to each by about mid-August 2009. The Board will then either propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R10-7, as necessary and appropriate.

Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R10-7, the earliest federal amendments in the applicable period appear to have occurred on January 21, 2009. Based on that date, the due date for Board adoption of amendments in docket R10-7 would be January 21, 2010.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2009, after which time the Board will either dismiss this docket or propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be January 21, 2010, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by late October 2009. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

G) Related rulemakings and other pertinent information:

Two other presently known proceedings could affect the general provisions of Part 211. Both pertain to nitrogen oxides emissions control. The Board adopted a Second Notice opinion and order in docket R07-19 on May 21, 2009. The Board adopted a proposal for First Notice in docket R08-19 on May 7, 2009.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

h) Parts (Headings and Code Citations): Nitrogen Oxides Emissions (35 Ill. Adm. Code 217)

1) Rulemaking: Docket Number R06-22

A) Description:

On January 19, 2006, the Board received a rulemaking proposal submitted by the Illinois Environmental Protection Agency (Agency) pursuant to Section 27 and 28 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/27 and 28 (2004)). Included in this proposal are amendments to the regulations governing Nitrogen Oxide (NO_x) emissions found at 35 Ill. Adm. Code Part 217, Subparts A, T, U, and W.

The amendments propose to update Part 217 to reflect recent amendments made by the United States Environmental Protection Agency (USEPA) to the Code of Federal Regulations concerning several test methods and procedures, and by the Illinois General Assembly to Section 9.9 of the Act concerning the sale of NO_x allowances and the repeal of the stay provisions. The Agency proposes amendments intended to ensure that the NO_x budgets for the non-EGUs are not reduced by low-emitters in a way that was not anticipated at the time the rules were originally adopted by the Board. Finally, the Agency proposes clarifications to the dates and timing of allocations designed to simplify the administration of the NO_x Trading Program. The Agency asserts that this proposal does not change the emission limits or require new control devices on affected sources.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

B) Statutory authority:
Implementing Sections 9.9 and 10 and authorized by Section 27 of the Environmental Protection Act [415 ILCS 5/9.9, 10 and 27].

C) Scheduled meeting/hearing dates:

In its most recent status report filed with the Board on March 9, 2009, the Agency stated that the U.S. Court of Appeals had remanded the Clean Air Interstate Rule to USEPA without vacating it. *See North Carolina v. EPA*, 550 F.3d 1176 (C.A.D.C. 2008). The Agency further stated that, in light of that decision and the obligation to achieve interstate NO_x reductions for industrial boilers, a new rulemaking integrating non-EGUs into the CAIR rules and to withdraw R06-22 may be proposed at that time.

D) Date agency anticipates First Notice:

Because the Agency intends to withdraw this rulemaking upon filing a new rulemaking in Spring 2009, the Board does not anticipate adopting a first notice opinion and order in this rulemaking.

E) Effect on small business, small municipalities, or not-for-profit corporation:

This rule change may affect any small business, small municipality, or not-for-profit corporation subject to the Board's nitrogen oxide (NO_x) emission rules.

- i) Parts (Headings and Code Citations): Nitrogen Oxides Emissions (35 Ill. Adm. Code 217)

- 1) Rulemaking: Docket Number R09-20

- A) Description:

On April 21, 2009, the Board received a rulemaking proposal submitted by the Illinois Environmental Protection Agency (IEPA or Agency) pursuant to Section 27 and 28 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/27 and 28 (2004)). The proposal would add a single new section, 35 Ill. Adm. Code 217.751 to 35 Ill. Adm. Code 217.Subpart W. Beginning with any control period in 2009, the new section would "sunset", or render inapplicable, the provisions of the Nitrogen Oxides Trading Program for electrical generating units (EGUs) found at 35 Ill. Adm. Code 217.Subpart W.

In its statement of reasons, the IEPA correctly states that Illinois adopted both the NOx Trading Program rules at 35 Ill. Adm. Code Part 217 and the

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

Clean Air Interstate Rule (CAIR) at 35 Ill. Adm. Code Part 225 after adoption of similar rules by the United States Environmental Protection Agency (USEPA). USEPA has approved both sets of rules for inclusion in the State Implementation Plan (SIP) for ozone attainment. As do the USEPA rules, the Illinois CAIR provisions as set forth in 35 Ill. Code Part 225.Subpart E include a trading program for control of NO_x emissions during the ozone season that replaces the provisions in Part 217.Subpart W for EGUs beginning with the 2009 control period (May 1 through September 30) and thereafter. But, due to a federal court ruling concerning the federal CAIR rules in *North Carolina v. USEPA*, 531 F.3d 896 (C.A.D.C. Cir. 2008), USEPA must take additional action concerning its rules. To solve the problem of applicability of two sets of rules, in 40 CFR 51.123(bb)(1)(i), USEPA has provided that states such as Illinois with approved CAIR programs may revise their applicable SIP so that the provisions of the NO_x SIP Call Trading Program do not apply to affected EGUs.

IEPA's proposal requesting the Board to amend the Illinois rules is the first step to revision of the SIP. IEPA correctly states that EGUs must comply with two sets of duplicative administrative requirements for the 2009 ozone season and beyond: the Illinois CAIR requirements at Part 225 and the Illinois NO_x Trading Program at Part 217. To address and remove the duplication, the IEPA proposes to sunset the provisions of the NO_x Trading Program, by adding a new Part 217.751 to sunset the rules beginning with the 2009 ozone control season.

1) Rulemaking: Docket Number R08-9

A) Description:

On November 1, 2007, the Board accepted a proposal for hearing in Water Quality Standards and Effluent Limitations for the Chicago Area Waterway System and the Lower Des Plaines River: Proposed Amendments to 35 Ill. Adm. Code 301, 302, 303, and 304 (R08-9). The proposal filed by the Illinois Environmental Protection Agency (Agency) on October 26, 2007, seeks to amend the Board's water quality standards for the "Chicago Area Water Way System" (CAWS) and the Lower Des Plaines River. On November 15, 2007, after the response time to the motion had run out, the Board granted the Agency's request to hold the hearings in this rulemaking in Chicago and Joliet.

In this rulemaking, the Agency proposes amendments to update the designated uses and criteria necessary to protect the uses for the waters currently designated for Secondary Contact and Indigenous Aquatic Life Uses. These specific designations were for those waters not suited for General Use activities. All waters in Illinois that carry these designations are water bodies that were a part of the engineering effort that reversed the flow of the Chicago River and are known as the CAWS and the Lower

o) Parts (Headings and Code Citations): Water Use Designations and Site Specific Water Quality Standards (35 Ill. Adm. Code 303)

1) Rulemaking: Docket Number R07-21

A) Description:

On May 30, 2007, the City of Joliet (Joliet) filed a proposal for a site-specific rulemaking with the Board. Joliet's proposal seeks site-specific relief from the Board's general use water quality standards for copper and fluoride (35 Ill. Adm. Code 302.208(e) and (g)) and provisions for determining water quality based effluent limitations (35 Ill. Adm. Code 304.105). Joliet states that under its proposal, the general use water quality standards for copper and fluoride and the provisions for determining water quality based effluent limitations would not apply to that portion of Hickory Creek downstream from the Joliet Street Bridge in Joliet to the juncture with the Des Plaines River that receives the discharge from the Joliet East Side waste water treatment plant (WWTP). Instead,

JULY 2009 REGULATORY AGENDA

Joliet proposes that its East Side WWTP discharge would have to comply with limits of 0.15 milligrams per liter (mg/L) for copper and 3.5 mg/L for fluoride as monthly average values.

Joliet explains that its petition is a follow-up to a March 30, 2007 Consent Order entered in a Will County Circuit Court case between Joliet, the Illinois Environmental Protection Agency, and the Attorney General's Office. According to Joliet, the Consent Order set interim daily maximum limits for copper limit (0.1156 mg/L) and fluoride (3.5 mg/L).

B) Statutory authority:
Implementing and authorized by Section 27 of the Environmental Protection Act [415 ILCS 5/27]

C) Scheduled meeting/hearing dates:

The assigned Board hearing officer is awaiting word from Joliet on Joliet's readiness to proceed with a hearing in this site-specific rulemaking.

1) Rulemaking: Docket Number R10-6

A) Description:

Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] mandates that the Board update the Illinois wastewater pretreatment regulations to reflect revisions made to the federal wastewater pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R10-6 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that USEPA may have made in the period January 1, 2009 through June 30, 2009. At this time, the Board is not aware of any amendments to the federal wastewater pretreatment regulations that occurred during this update period.

The Board will verify the existence of any federal actions that may affect the text of the federal wastewater pretreatment regulations and the Board action required in response to each set of federal amendments in coming

weeks, by about mid-August 2009. The Board will then propose corresponding amendments to the Illinois wastewater pretreatment regulations using the identical-in-substance procedure under docket R10-6, as necessary and appropriate.

Section 13.3 of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R10-6, if the earliest federal amendments in the applicable period occurred on January 1, 2009, the due date for Board adoption would be January 1, 2010.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13, 13.3, and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13, 13.3 & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2009, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2010, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-October 2009. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois wastewater pretreatment rules is needed, the Board will promptly dismiss this reserved docket.

t) Part (Heading and Code Citation): Primary Drinking Water Standards (35 Ill. Adm. Code 611)

1) Rulemaking: Docket Number R10-1

A) Description:

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] mandates that the Board update the Illinois SDWA regulations to reflect the USEPA amendments to the federal Safe Drinking Water Act (SDWA) primary drinking water regulations.

The Board has reserved docket number R10-1 to accommodate any amendments to the SDWA national primary drinking water standards, 40 CFR 141 through 143, that the United States Environmental Protection Agency (USEPA) may make in the period January 1, 2009 through June 30, 2009. At this time, the Board is not aware any federal amendments to the SDWA primary drinking water regulations that occurred during this update period.

The Board will verify the existence of any other federal actions that may affect the text of the federal primary drinking water standards and the Board action required in response to each in coming weeks, by about mid-August 2009. The Board will then propose corresponding amendments to the Illinois SDWA primary drinking water regulations

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

using the identical-in-substance procedure or dismiss docket R10-1, as necessary and appropriate.

Section 17.5 mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R10-1, if the earliest federal amendments in the applicable period occurred on January 1, 2009, the due date for Board adoption would be January 1, 2010.

B) Statutory authority:

Implementing and authorized by Sections 17, 17.5, and 27 of the Environmental Protection Act [415 ILCS 5/17, 17.5 & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2009, after which time the Board will propose any amendments to the Illinois SDWA drinking water rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be July 1, 2010, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early October 2009. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board will promptly dismiss this reserved docket.

subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

- u) Part (Headings and Code Citations): Laboratory Accreditation Rules (35 Ill. Adm. Code 611)
 - 1) Rulemaking: No docket presently reserved.
 - A) Description:

The Illinois Environmental Protection Agency (Agency) is currently developing a proposal for filing with the Board. The proposal will seek to amend the public water supplies rules found in 35 Ill. Adm. Code 611 to cross reference the Agency's own laboratory accreditation rules found at 35 Ill. Adm. Code 186. These prospective amendments to Sections 611.359, 611.611, 611.646, and 611.648 would cross-reference the laboratory accreditation rules at 35 Ill. Adm. Code 186. Currently, the existing text of Part 611 references 35 Ill. Adm. Code 183, which are joint rules of the Agency, the Illinois Department of Public Health, and the Illinois Department of Nuclear Safety. A repeal of Part 183 has been completed.
 - B) Statutory Authority:

Sections 27 and 28 of the Illinois Environmental Protection Act [415 ILCS 5/27 & 28].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings as required by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28].

D) Date Agency Anticipates First Notice:

An Agency submittal of the rulemaking proposal is anticipated by Spring or Summer of 2009. The Board will conduct proceedings pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28] upon receipt of the proposal and would cause a Notice of Proposed Amendments to appear in the *Illinois Register* when it decides to propose amendments for First Notice.

E) Affect on small business, small municipalities or not-for-profit corporations:

These amendments may affect small business, small municipalities, and not-for-profit corporations that own or operate a "public water supply", as defined by Section 3.28 of the Act, i.e., it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance with the federally-derived National Primary Drinking Water Standards of 35 Ill. Adm. Code 611. However, it is anticipated that the proceeding will not likely have a quantifiable affect on these entities because the program for national laboratory certification is voluntary. The burden of compliance with the requirements, such as filing documentation, reporting or completion of the necessary forms, likely will not increase.

v) Part (Heading and Code Citation): Groundwater Quality (35 Ill. Adm. Code 620)

1) Rulemaking: Docket Number R08-18

A) Description:

On February 19, 2008, the Board received a rulemaking proposal from the Illinois Environmental Protection Agency (Agency) to amend the Board's groundwater quality rules (35 Ill. Adm. Code 620). On March 20, 2008, the Board accepted the Agency's proposal for hearing in Proposed Amendments to Groundwater Quality Standards, 35 Ill. Adm. Code 620, docket R08-18. In its proposal, the Agency notes that it is periodically necessary to amend the groundwater quality standards to account for new scientific data, federal updates, updated technical references, and the discovery of additional groundwater parameters. To that end, the proposed amendments, according to the Agency are intended to ensure

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

that as the science and technical data behind the standards evolve, the groundwater regulations stay current.

The Agency states that in developing the proposal, the Agency evaluated the electronically-reported groundwater data for Illinois Resource Conservation and Recovery Act (RCRA) and solid waste facilities under its purview. A data query was conducted for some 300 groundwater parameters not included in 35 Ill. Adm. Code 620.Subpart C. The Agency explains that it also evaluated confirmed groundwater contaminants at various cleanup sites. The Agency now proposes, for example, updates to make Part 620 consistent with groundwater remediation objectives listed in the Tiered Approach to Corrective Action Objectives (TACO) (35 Ill. Adm. Code 742) for several chemicals detected in groundwater but not currently included in Part 620. The Agency also proposes a groundwater standard for perchlorate based on the new reference dose published by the United States Environmental Protection Agency (USEPA) and recommended by the National Academy of Science (NAS). Additionally, the Agency is proposing an amendment to the existing groundwater standard of 0.050 milligrams per liter (mg/L) for arsenic based on the amendment of the federal drinking water standard or maximum contaminant level (MCL) for arsenic to 0.010 mg/L. The Agency further proposes amendments to the provisions on incorporations by reference, including the addition of "Guidance Document for Groundwater Protection Needs Assessments (January 1995)," prepared by the Agency, the Illinois State Water Survey, and the Illinois State Geologic Survey.

B) Statutory authority:

Implementing and authorized by Section 8 of the Illinois Groundwater Protection Act (IGPA) [415 ILCS 55/8] and Section 27 of the Environmental Protection Act [415 ILCS 5/27].

C) Scheduled meeting /hearing date:

The Board held two hearings in this rulemaking as required by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27, 28]. The first hearing took place in Chicago on June 18, 2008, and the second hearing took place in Springfield on July 16, 2008.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

D) Date agency anticipates First Notice:

The Board anticipates that it may propose amendments for first-notice publication in the *Illinois Register* in the Summer or Fall of 2009.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

The Agency does not anticipate that the proposed amendments would have a significant impact on any small business, small municipality, or not-for-profit corporation. Sources and facilities that may be impacted would include those that cause, threaten, or allow the contamination of groundwater. According to the Agency, however, the proposed groundwater quality standards do not establish new corrective action or monitoring programs, and new constituent standards would be phased into existing programs, as appropriate, over time. The Agency explains that any economic impact resulting from applying the new standards therefore would be incremental and occur on a site-by-site basis over time. Considering the resource and its end users, the Agency indicates that economic benefits may result from adopting these standards, including reduced health risks, reduced expenses for treating water at wellheads, and reduced expenses for obtaining water supplies.

Section 13(c) of the Environmental Protection Act [415 ILCS 5/13(c)] mandates that the Board update the Illinois underground injection control (UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R10-2 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148, during the period January 1, 2009 through June 30, 2009. At this time,

Subtitle C of the federal Resource Conservation and Recovery Act (RCRA) to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle C regulations.

The Board has reserved docket number R10-4 to accommodate any amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period January 1, 2009 through June 30, 2009. At this time, the Board is not aware of any amendments to the federal RCRA Subtitle C hazardous waste regulations that occurred during this update period.

The Board will verify the existence of any other federal actions that affect the RCRA Subtitle C regulations and the Board action required in response to each in coming weeks, by about mid-August 2009. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R10-4, as necessary and appropriate.

Section 22.4(a) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. In docket R10-4, if the earliest federal amendments in the applicable period occurred on January 1, 2009, the due date for Board adoption would be January 1, 2010.

aa) Part (Headings and Code Citation): Tiered Approach to Corrective Action Objectives (35 Ill. Adm. Code 742)

1) Rulemaking: Docket Number R09-9

A) Description:

On September 3, 2008, the Illinois Environmental Protection Agency (Agency) filed a proposal with the Board to amend the Board rules for Tiered Approach to Corrective Action Objectives (TACO)(35 Ill. Adm. Code 742). On September 16, 2008, the Board accepted the Agency's proposal for hearing in Proposed Amendments to Tiered Approach to Corrective Action Objectives (35 Ill. Adm. Code 742), docket R09-9. According to the Agency, the proposed amendments seek to add the indoor inhalation exposure route to the existing risk-based methodology and update remediation objectives for all of the exposure routes under TACO.

B) Statutory Authority:

These amendments were proposed pursuant to Section 27 of the Environmental Protection Act [415 ILCS 5/27].

C) Scheduled Meeting/Hearing Dates:

The Board held two hearings in this rulemaking as required by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27, 28]. The first hearing took place in Springfield on January 27, 2009, and the second hearing took place in Chicago on March 17, 2009.

D) Date Agency Anticipates First Notice:

The Board anticipates that it may propose amendments for first-notice publication in the *Illinois Register* in the Summer or Fall of 2009.

E) Effect on Small Business, Small Municipalities, or Not-for-Profit Corporations:

The amendments may affect any small business, small municipality or not-for-profit corporation performing environmental remediation under a program subject to the Board's TACO rules, such as the Site Remediation Program (SRP), the Leaking Underground Storage Tank (LUST) Program, or a Resource Conservation and Recovery Act (RCRA) Part B permit. According to the Agency, the use of TACO has put many sites back into safe, productive use while significantly decreasing remediation expenses statewide. The Agency contends that its proposed amendments are economically reasonable and that the public policy reasons for adding the indoor inhalation exposure route to the TACO rules far outweigh any extra costs that may be incurred due to the addition of the new exposure route.

1) Rulemaking: Docket Number R10-3

A) Description:

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] mandates that the Board update the Illinois Resource Conservation and Recovery Act (RCRA) Subtitle D municipal solid waste landfill (MSWLF) regulations to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle D MSWLF rules.

The Board has reserved docket number R10-3 to accommodate any amendments to the RCRA Subtitle D regulations, 40 CFR 258, that USEPA may make in the period January 1, 2009 through June 30, 2009. At this time, the Board is not aware of any federal amendments to the federal MSWLF rules that occurred during this update period.

The Board will verify the existence of any additional federal actions that may affect the text of the federal primary drinking water standards and the Board action required in response to each in coming weeks, by about

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2009 REGULATORY AGENDA

mid-August 2009. The Board will then propose corresponding amendments to the Illinois RCRA Subtitle D MSWLF regulations using the identical-in-substance procedure or dismiss docket R10-3, as necessary and appropriate.

Section 22.40(a) mandates that the Board complete amendments within one year of the date on which USEPA adopted the earliest action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, January 1, 2009, the due date for adoption of amendments in docket R10-3 would be January 1, 2010.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.40(a) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.40(a) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2009, after which time the Board will propose any amendments to the Illinois RCRA Subtitle D MSWLF rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket were assumed to be January 1, 2009, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-October 2009. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the

dd) Parts (Headings and Code Citations): Proposed Site-Specific Closures of Surface Impoundments (35 Ill. Adm. Code 840)

1) Rulemaking: Docket Number R09-21

A) Description:

On May 19, 2009, Ameren Energy Generating Company (Ameren) filed a proposal for site-specific rulemaking. Ameren proposes a new subchapter in the Board's waste disposal regulations to address the closure of surface impoundments. Specifically, Ameren seeks the adoption of regulations through which it can close Ash Pond D at its Hutsonville Power Station (Station) near Hutsonville, Crawford County.

Ameren argues that the Board's water pollution regulations apply during the operation of surface impoundments such as Pond D. Ameren further argues that, when closed, those surface impoundments are not defined as landfills and do not fit within the scope of the Board's waste disposal rules or other regulations. Ameren claims that these circumstances warrant adoption of a site-specific rule. Specifically, Ameren proposes a new subchapter addressing surface impoundments under the existing Subtitle G regulations governing waste disposal.
