ROBERT F. KAUCHER, ATTORNEY FOR THE ENVIRONMENTAL PROTECTION AGENCY
JOHN D. FLYNN, ATTORNEY FOR RESPONDENT

SUPPLEMENTAL OPINION AND ORDER (BY MR. ALDRICH):

On December 13, 1971, John D. Flynn, Attorney, filed a letter with the Pollution Control Board requesting clarification of the Board's Order of November 11, 1971 and also requesting at least 60 days to review the decision and to deliberate on a possible appeal.

The original Order of the Board gave Reeves until November 30, (19 days) in which to file an affidavit affirming that the new water supply system was in operation as indicated in the record. This was a reasonable period of time inasmuch as only an affidavit was required. Unfortunately, the order was not received by Reeves until December 13. We therefore hereby modify the Order to require such an affidavit by January 15, 1972.

The original order also required Reeves to supply tests by December 31, 1971 to show that water quality standards were, in fact, being met by the new system. We hereby extend to January 30, 1972 the date to supply tests as described in the original Order.

We do not interpret 331(b) of the Board's Procedural Rules as requiring that parties be supplied with the vote of each Board Member since it states only that the opinion shall be published with the vote recorded. Nevertheless, we are pleased to comply with the request. The vote was unanimous.

I, Christan Moffett, Acting Clerk of the Pollution Control Board, certify that the above Supplemental Opinion and Order was adopted on the 21st day of December, 1971 by a vote of 4-0.

Christan I. Moffett
