ORDER OF THE BOARD (by Mr. Dumelle)

This is a short letter petition to use "325 to 350 pounds of copper sulfate" in the Ashley water supply. The petition was received by the Board on April 19, 1973.

The petition is wholly inadequate. No frequency of dosage is given; no resulting concentration of copper in the water is given; no statement is made as to whether fish exist in the reservoir and no reasons are given why alternatives such as biodegradable algicides cannot be used.

Petitioner is given 35 days from today to file an amended petition setting forth the facts needed as described above. With the amended petition shall be filed a waiver of the 90 day period in which a decision is due until said filing.

The Agency is asked to provide the petitioner with previous Board opinions on this subject as a guide to the information desired (City of LaHarpe, et al, PCB 72-168, August 8, 1972 and City of Paris, et al, PCB 72-277, August 15, 1972).

Unless an amended petition is timely filed the present petition will be dismissed as inadequate.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 26th day of April, 1973 by a vote of 3-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
