Letter from the Chairman

During September, the Board moved forward in a number of open rulemaking dockets. Below, I've summarized recent activity. As always, information about these proceedings is available through the Clerk's Office Online (COOL) at our Web site at www.ipcb.state.il.us.

On September 2, 2010, the Board accepted for hearing Regulatory Proposal for NOx Trading Program Sunset Provisions for Non-Electric Generation Units ("Non-EGU"): Amendments to 35 Ill. Adm. Code Part 217, Subpart U, R11-8. This proposal was filed by the Illinois Environmental Protection Agency (IEPA) to sunset the trading provisions of the Nitrogen Oxide SIP Call Trading Program (NOx Trading Program). On September 16, 2010, the Board adopted an order granting the IEPA's motion to withdraw an earlier proposal in NOx Trading Program: Amendments to 35 Ill. Adm. Code Part 217, R06-22. The Board order also closes the docket in R06-22.

On September 2, 2010, the Board adopted Reasonably Available Control Technology (RACT) for Volatile Organic Material Emissions from Group IV Consumer & Commercial Products: Proposed Amendments to 35 Ill. Adm. Code 211, 218, and 219, R10-20. These regulations were originally proposed by the IEPA to amend Parts 211, 218, and 219 of the Board's air regulations to control volatile organic material (VOM) emissions from miscellaneous metal and plastic parts coatings; auto and light-duty truck coatings; miscellaneous industrial adhesives; and fiberglass boat manufacturing materials. 34 Ill. Reg. 14119, 14174, 14326 (Oct. 1, 2010).

On September 2, 2010, the Board adopted an order in RCRA Subtitle C (Hazardous Waste) Update, USEPA Amendments (January 1, 2009 through June 30, 2009), R10-4, RCRA Subtitle C (Hazardous Waste) Update, USEPA Amendments (July 1, 2008 through December 31, 2008), R09-16 (consolidated). The order extends the deadline for filing amendments in this identical-in-substance rulemaking to November 30, 2010.

On September 2, 2010, the Board adopted a second-notice opinion and order in Proposed Amendments to the Board's Special Waste Regulations Concerning Used Oil, 35 Ill. Adm. Code 739, 808, 809, R06-20(B). The rule proposes new definitions for several terms delineated in the revisions to the Board's used oil and special waste regulations that were adopted in R06-20(A). The proposed definitions in Docket R06-20(B) are on the agenda for the October 19, 2010 meeting of the legislative Joint Committee on Administrative Rules.

All open Board rulemaking dockets, as well as contested case dockets, can be viewed on our website at www.ipcb.state.il.us.

Sincerely,

Rulemaking Update

Board Adopts for Second Notice a Proposal Adding Definitions to Used Oil Management Standards and to Special Waste Regulations, R06-20(B)

On September 2, 2010, the Board adopted for second notice review by the Joint Committee on Administrative Rules (JCAR) proposed definitions relating to used oil management in the rulemaking docketed as In the Matter of: Proposed Amendments to the Board’s Special Waste Regulations Concerning Used Oil, 35 Ill. Adm. Code 739, 808, 809 (R06-20(B)). JCAR has scheduled the rules for review at its October 9, 2010 meeting.

In an order dated February 18, 2010, the Board adopted amendments to its used oil management and special waste regulations in the main docket, now designated as R08-9(A). The Board noted that, during the first-notice comment period, the Illinois Environmental Protection Agency (IEPA) and NORA, formerly known as the National Oil Recycling Association, had addressed adding definitions, which had not been included in the first-notice proposal. On December 17, 2009, the Board opened R08-9(B) in order to provide first notice publication of proposed definitions.

In response to public comments filed by IEPA and NORA, the Board modified the proposed definition of “wastewater” and defined the term “washwater,” as recommended by the IEPA, but declined to modify the generator certification requirement adopted in R08-9(A).

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board’s Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk’s office.

Board Extends Completion Deadline in consolidated RCRA C Update Identical-in-Substance Rulemaking, R09-16/R10-4 (cons.)

On September 2, 2010, the Board extended the deadline for adoption in the identical-in-substance rulemaking docketed as In the Matter of: RCRA Subtitle C Update, UEPA Amendments (July 1, 2008 through June 30, 2009) R09-16/ R10-04. The Board adopted the proposal for public comment in this docket on June 17, 2010. It was published at 34 Ill. Reg. 10991-11368 (Aug. 6, 2010), and the 45-day public comment period accordingly ends September 20, 2010. The Board found that extension of the deadline for completion and of amendments in this matter from November 15, 2010 until November 30, 2010 is necessary due to the sheer volume and complexity of both the proposal and the public comments received.

Board Timely Adopts Fast Track Rules for Control of Volatile Organic Material Emissions from Group IV Consumer & Commercial Products, R10-20

On September 2, 2010, the Board timely adopted its final order in the rulemaking proposal docketed as In the Matter of: Reasonably Available Control Technology (RACT) for Volatile Organic Material Emission From Group IV Consumer & Commercial Products: Proposed Amendments to 35 Ill. Adm. Code 211, 218, and 219 (R10-20). On March 8, 2010, the Illinois Environmental Protection (IEPA) filed the proposal pursuant to the “fast-track” rulemaking provisions at Section 28.5 of the Environmental Protection Act (Act). The Board held two hearings on

Environmental Register – September 2010

the proposal. The Joint Committee on Administrative Rules (JCAR) issued its Certificate of No Objection on August 10, 2010 to the Board's proposal.

The adopted volatile organic material (VOM) emission controls are based on control techniques guidelines (CTGs) issued by the United States Environmental Protection Agency on October 7, 2008, for the following Group IV consumer and commercial product categories: miscellaneous metal and plastic parts coatings; auto and light-duty truck coatings; miscellaneous industrial adhesives; and fiberglass boat manufacturing materials.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board's Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk's office.

Board Accepts for Hearing IEPA Rulemaking Proposal that Would Sunset Provisions of the NO_x SIP Call Trading Program for Non-Electric Generating Units, R11-8

On September 2, 2010, the Board accepted for hearing the August 19, 2010 proposal filed by the Illinois Environmental Protection Agency (IEPA) for amendments to the Board's air rules. The proposal that was docketed as In the Matter of: NO_x Trading Program Sunset Provisions for Non-Electric Generating Units (Non-EGUs): Amendments to 35 Ill. Adm. Code Part 217.Subpart U, R11-08. (The IEPA proposed, and the Board adopted, similar rules dealing with EGUs: Nitrogen Oxide (NO_x) Trading Program Sunset Provisions for Electric Generating Units (EGU's): New 35 Ill. Adm. Code 217.751, R09-20 (rules adopted Oct. 15, 2009).

The IEPA states that the proposed amendments would sunset the trading provisions of the Nitrogen Oxide SIP Call Trading Program (NO_x Trading Program). The sole provisions to be amended involved the holding and trading provisions of Part 217.Subpart U. Due to a federal court ruling concerning the federal CAIR rules in *North Carolina v. USEPA*, 550 F.3d 1176 (C.A.D.C. Cir. 2008), the court reinstated that CAIR begin implementation with the original 2009 control period. As a result of the court action, IEPA explains that Illinois' non-Electric Generating Units (non-EGUs) no longer need to comply with the NO_x Trading Program requirements for holding and trading NO_x allowances for any control period after 2008 because U EPA no longer allocates allowances for the NO_x Trading Program. Therefore, Subpart U is now moot where it requires that non-EGUs hold their allowances for the 2010 season. However, to ensure that Illinois continues to satisfy its NO_x budget, non-EGUs must continue monitoring, reporting, and recordkeeping under Subpart U.

The Board's hearing officer is in the process of scheduling hearings.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board's Web site and may be downloaded from the Web without charge. Hard copies may be obtained for \$.75 per page from the Clerk's office.

Board Grants IEPA Motion to Withdraw Rulemaking Proposal to Amend Nitrogen Oxides Emissions Regulations

On September 16, 2010, the Board granted the Illinois Environmental Protection Agency's (IEPA) motion to withdraw the rulemaking proposal docketed as NO_x Trading Program: Amendments to 35 Ill. Adm. Code Part 217, R06-22. Originally filed on January 19, 2006, the proposal would have amended the regulations governing Nitrogen Oxide (NO_x) emissions found at 35 Ill. Adm. Code Part 217, Subparts A, T, U, and W.

On August 19, 2010, the IEPA filed a motion to withdraw the proposal and close docket. The IEPA reported that the proposed amendments "are now moot because the USEPA is no longer administering the NO_x SIP Call program" and that "[a]ny amendments to the NO_x SIP Call Program are, therefore, unnecessary and not federally approvable." In addition to granting IEPA's motion to withdraw, the Board's order also denied two pending motions as moot. (Simultaneously with the filing of the motion to withdraw the R06-20 proposal, IEPA filed the R11-08 proposal described immediately above.)

Provisional Variances

IEPA 11-05 DeKalb Sanitary District v. Illinois Environmental Protection Agency—The Illinois Environmental Protection Agency (IEPA) granted, subject to conditions, the DeKalb Sanitary District’s request for a 45-day provisional variance so that it can implement the tertiary filter rehabilitation at the Main Wastewater Treatment Facility. The DeKalb Sanitary Districts is the Designated Management Authority for planning, collection and treatment of wastewater for DeKalb Township, Afton Township and parts of Cortland Township. The DeKalb Sanitary District – Biosolids Rehabilitation Project – Phase 1A (IEPA Permit No. 2009-AB-1957) is currently under construction. As the result of a 2008 inspection, the District decided that the rehabilitation of tertiary filters require attention, and the tertiary filter rehabilitation was added to the Phase 1A – Biosolids Rehabilitation Project Scope. The IEPA granted the provision variance from the ammonia nitr4ogen limits required in NPDES Permit IL 0023027 subject to conditions. The provisional variance is effective from October 1, 2010 through November 14, 2010.

Public Act 93-0152 (Senate Bill 222) amended Sections 35-37 of the Illinois Environmental Act (415 ILCS 5/5(b) (2008)) so that provisional variances are issued by the Illinois Environmental Protection Agency (IEPA). If the IEPA grants a provisional variance, then the IEPA must file a copy of its written decision with the Board. The Board must maintain copies of the provisional variances for public inspection. Copies of provisional variances can be obtained by contacting the Clerk’s Office at (312) 814-3620, or by visiting the Board’s Website at www.ipcb.state.il.us. If the IEPA denies a provisional variance request, then the applicant may initiate a proceeding with the Board for a full variance.
