RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its

Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution

Control Board, 35 Ill. Adm. Code 125.204.

- 1. On November 17, 2009, the Illinois EPA received a request from Levi G. Greuel Farms, Inc. (log number TC-18-09, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 lll. Adm. Code 125.204.
- 2. The applicant's address is:

Austin Pork Farms 1285 East 1300th Street Industry, Illinois 61440

3. The proposed water pollution control facilities in this request are located at Section 29, T4N, R2W of the 4th P.M. in McDonough County, at the above street address and consist of the following:

Livestock waste management facilities consisting of one concrete manure pit (approximately 71 ft. x 281 ft. x 10 ft. deep), and the portion of concrete slatted flooring over the manure pit in building #1.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application, and are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2008), defines "pollution control facilities" as:

"any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution ...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property."

- 5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
- 6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 III. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 III. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the

Electronic Filing - Received, Clerk's Office, January 13, 2011 - Page 5 * * * * PCB 2011-039 * * * * *

requested tax certification.

Recommendation of Tax Certification

Log # TC-18-09

Property Identification # 09-000-363-05

RECEIVED

Division of Legal Counsel

JAN 0 7 2UII

Environmental Protection Agency

The Bureau of Water received a request on November 17, 2009 from Levi G. Greuel for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 II. Adm. Code 125,204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

Greue! Pork Farms 1285 East 1300th Street Industry, IL 61440

Section 29, Township 4N, Range 2W, of the 4th PM in McDonough County.

Livestock waste management facilities consisting of one concrete manure pit approximately (71 ft. x 281 ft. x 10 ft.) and the portion of concrete slatted flooring over the manure pit in building #1.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application.

These facilities are further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact James Blessman at 217/782-3362.

000.0	INSTRUCTIONS FOR COMPILING AND FILING APPLICATION						
	Genei water	General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.					
	Sec.	Sec. A Information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.					
	Sec.	Self-explanatory. Submit copies of all pe	ermits issued by local pollution control a	gencies. (e.g. MSD Construction Permit)			
	Sec.	Refers to manufacturing processes of the		·			
INSTRUOTIONS	Sec.	Sec. D Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the pollution control facility. Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an average analysis of the influent and effluent of the control facility stating the collection efficiency.					
	Sec.	List air contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) – Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) – Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) – If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) – State the date which the pollution control facility was first placed in service and operated. If not, explain, Item (5) – This information is essential to the certification and assessment actions. This accounting data must be completed to
