SUPPLEMENTAL STATEMENT (by Mr. Dumelle):

While I voted for the grant of this variance I would have done so without conditioning the connection of the housing project to the completion of the interceptor sewer and to the operation of the regional sewage treatment plant.

The Federal loan and mortgage insurance may be in jeopardy because of this condition. If this proves to be so, then I would hope that the Petitioners would promptly ask for a variance from this condition of the Board Order. Safe and sanitary housing for low income persons is also an environmental necessity. And the degradation of the Rock River, if any, from the Silvis discharges is not specified but only to be inferred from the effluent data.

Jacob D. Dumelle

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Supplemental Statement was submitted on the 8th day of September, 1975.
