## ILLINOIS POLLUTION CONTROL BOARD June 20, 1972

| MARS DEVELOPMENT CO. et a | )<br>)   |
|---------------------------|----------|
| v.                        | # 71-344 |
| ENVIRONMENTAL PROTECTION  | AGENCY ) |

Opinion and Order of the Board (by Mr. Currie):

This amended petition sought reconsideration of the Board's order dismissing earlier petitions for stated deficiencies, ## 71-218, 71-219, October 26, 1971; #71-344 (Preliminary Order), December 6, 1971. On June 13, 1972 Counsel for Petitioners requested that the Board dismiss the above-referenced petitions for variance. Counsel stated that the proofs adduced in the various cases related to the adequacy of the facilities of the North Shore Sanitary District, which matters have now been resolved. Counsel further stated that petitioner's applications for sewer connection permits filed with the North Shore Sanitary District had been denied on the basis that the City of Waukegan sewers were insufficient to transport the wastes in question to the District's facilities. Since the evidence submitted at the Board's earlier hearings into this matter do not, as Counsel points out, provide information relative to the City of Waukegan sewer system, petitioners ask that their case be dismissed. Accordingly, this matter is hereby dismissed without prejudice.

I, Christan L. Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order this day of \_\_\_\_\_\_, 1972 by a vote of \_\_\_\_\_\_.
