5. That on 7-26-11, Illinois EPA sent this Administrative Citation via Certified Mail No. 7004 2510 0001 8619 1999.

VIOLATIONS

Based upon direct observations made by William Zierath during the course of his June 1, 2011 inspection of the above-named facility, the Illinois Environmental Protection Agency has determined that Respondents have violated the Illinois Environmental Protection Act (hereinafter, the "Act") as follows:

- (1) That Respondents caused or allowed the open dumping of waste in a manner resulting in litter, a violation of Section 21(p)(1) of the Act, 415 ILCS 5/21(p)(1) (2008).

Those hearing costs shall be assessed in addition to the One Thousand Five Hundred Dollar (\$1,500.00) statutory civil penalty for each violation.

Pursuant to Section 31.1(d)(1) of the Act, 415 ILCS 5/31.1(d)(1) (2008), if Respondents fail to petition or elect not to petition the Illinois Pollution Control Board for review of this Administrative Citation within thirty-five (35) days of the date of service, the Illinois Pollution Control Board shall adopt a final order, which shall include this Administrative Citation and findings of violation as alleged herein, and shall impose the statutory civil penalty specified above.

MEMORANDUM

Date: June 1, 2011

To: BOL File

From: William E. Zierath, BOL/FOS - Springfield Region

Subject: LPC# 1078105003 – Logan County
Latham/Harrell
Complaint C-10-021-C
FOS File

A complaint investigation follow-up was conducted at this property located southeast of Latham, Illinois on June 1, 2011. Mr. Gaylon Harrell was interviewed. The weather was 75°F and sunny.

The initial investigation was conducted on September 30, 2009. The complaint alleged that there were junk vehicles and barrels on this property. It was found that there were numerous old vehicles, used tires and other wastes at this site. An Administrative Citation Warning Notice was sent on November 3, 2009. The target cleanup date was February 1, 2010. During a follow-up inspection on July 27, 2010, it was determined that this site had made progress in resolving the previously noted apparent violations. In a September 9, 2010 letter, the IEPA extended the deadline to the end of 2010. A follow-up inspection was conducted on January 28, 2011. Apparent violations remained. A letter was sent on March 4, 2011 that extended the deadline for cleanup to March 31, 2011. The purpose of this inspection was to determine if the site had been cleaned up.

This site continues to have a number of old cars, particularly along the west edge of the site. Many of the old vehicles were previously covered by tarps, but many of the tarps had been blown off. These cars are shown in photographs 008, 011, 012, 013, 014 and 015. Mr. Harrell is an antique car enthusiast. He has indicated that he intends to repair the vehicles and use them for parts.

There were still used tires at the site during this inspection. Some of the used tires were on a small trailer northwest of the house. These tires are shown in photographs 001, 002, 003, 004 and 005. Three of the tires on the trailer were off rims. These tires are shown in photographs 003, 004 and 005. One of the tires had a small amount of water in it. This is shown in photograph 005. Mr. Farrell indicated that the tires had been covered by a tarp but it had blown off during a recent storm. I recommended removing the water as soon as possible.

There were additional used tires located under a carport. These tires are shown in photographs 007 and 008.

There were numerous old cars still located in the west area of the site. Most of the cars were protected by tarps. These cars are shown in photographs 007, 008, 011, 012, 013, 014 and 015.

There was a small burn pile located in the west part of the site. This burn pile is shown in photographs 011 and 012. The burn pile was not actively burning during this inspection.

Scattered throughout much of this site were metal and plastic waste items. While there were some piles with sorted metal items, there had been little effort to organize and sort the metal items for subsequent scrapping. There were still numerous non-scrap metal items scattered around the site. This scattered waste is shown in photographs 001, 002, 003, 006, 007, 008, 009, 010, 011, 012, 013, 014, 015, 016, 017, 018 and 019.

Apparent violations are listed on the attached checklist.
