RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board, 35 Ill. Adm. Code 125.204.

1. On April 27, 2010, the Illinois EPA received a request from Jeff and Mitzi Sharer (log number TC-06-10, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.

2. The applicant's address is: Jeff and Mitzi Sharer  
1750E  
Little York, Illinois 61453

3. The proposed water pollution control facilities in this request are located at SE 1/4 Section 15, T12N, R4W of the 4th PM in Henderson County, at the above street address and consist of the following:

Livestock waste management facilities consisting of a concrete a manure pit (approximately 71 ft. x 281 ft. x 8 ft.) and the slotted floors that overlay the concrete manure pits.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application, and are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2010), defines "pollution control facilities" as:  
"any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated

**THIS FILING IS SUBMITTED ON RECYCLED PAPER**

for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution ...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.”

5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
  
6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA’s engineering judgment that the described facilities may be considered “pollution control facilities,” pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the

requested tax certification.

AUG 17 2011

Environmental Protection  
Agency

The Bureau of Water received a request on April 27, 2010 from Jeff and Mitzi Sharer for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Il. Adm. Code 125.204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

Jeff and Mitzi Sharer  
RR2 Box 95  
Little York, Illinois 61453

SE1/4 of Section 15, T12N, R4W of the 4<sup>th</sup> P.M. in Henderson County

Livestock waste management facilities consisting of a concrete manure pit that is approximately 71ft. x 281ft. x 8ft. and the slotted floors that overlay the concrete manure pits.

This livestock waste management facility is used to collect, transport and/or store livestock wastes prior to cropland application.

These facilities are further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact Jamie Cowles at 217/782-3362.

(5) a. FAIR CASH VALUE IF CONSIDERED REAL PROPERTY:												
b. NET SALVAGE VALUE IF CONSIDERED REAL PROPERTY:												
c. PRODUCTIVE GROSS ANNUAL INCOME OF CONTROL FACILITY:												
d. PRODUCTIVE NET ANNUAL INCOME OF CONTROL FACILITY:												
e. PERCENTAGE CONTROL FACILITY BEARS TO WHOLE FACILITY VALUE:												
Sec. F	The following information is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge, is true and correct. The facilities claimed herein are "pollution control facilities" as defined in Section 11-10 of the Illinois Property Tax Code.											
SIGNATURE	<u>Mike Sharer</u> <u>owner</u> Signature    Title											
Sec. G	INSTRUCTIONS FOR COMPILING AND FILING APPLICATION											
INSTRUCTIONS	General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.											
Sec. A	information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.											
Sec. B	Self-explanatory. Submit copies of all permits issued by local pollution control agencies. (e.g. MSD Construction Permit)											
Sec. C	Refers to manufacturing processes or materials on which pollution control facility is used.											
Sec. D	Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the pollution control facility. Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an average analysis of the influent and effluent of the control facility stating the collection efficiency.											
Sec. E	List all contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) - Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) - Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) - If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) - State the date which the pollution control facility was first placed in service and operated. If not, explain. Item (5) - This information is essential to the certification and assessment actions. This accounting data must be completed to activate project review prior to certification by this Agency.											
Sec. F	Self-explanatory. Signature must be a corporate authorized signature.
