Narrative Inspection Report

Site #: 1990555266

Date of Inspection: 12/6/2011 & 12/21/2011

County: Williamson

Inspector: Maggie Stevenson

Site Name: Marion/Bloodworth-Smith

General Remarks

The 12/6/2011 inspection was a routine tire storage inspection. Inspector Fatka accompanied me on the site inspection. The inspection began at approximately 10:05 a.m. and concluded around 10:20 a.m. Three pictures were taken of the site. The 12/21/2011 inspection was a continuation of the 12/6/2011 inspection. Pictures were taken from off-site. The inspection began at approximately 10:00 a.m. and concluded around 10:15 a.m.

Inspection Findings:

At the time of the 12/6/2011 inspection there were approximately 200 used/waste tires holding water and being stored outside of the east bay. Inside the two-sided bay there were approximately 300 used/waste tires, some of which were holding water. In the two-sided west bay there were another approximately 200 used/waste tires. Mr. Guy Bloodworth was interviewed and he stated that things were in disarray since the move so his records were not in order. He also stated that he was registered at the other site and he was informed the registration and tire storage site fee is by location and annual. Mr. Bloodworth stated that Dave Shirley hauls off scrap tires every other week but he could not provide receipts or any type of sale records, contingency plan, etc. Mr. Bloodworth also stated that the tires outside had just been delivered that day and he had not had time to drain the water and sort through the tires to weed-out the bad used tires. Mr. Bloodworth was not able to provide a delivery receipt for the load of used tires he stated were deposited at his facility that morning. One unmarked drum was noted at the site. On 12/21/2011 I returned to the site to take photographs of the south side of the building. There were approximately 150 tires in this area. The tires that were photographed during the 12/6/2011 inspection on the north side of the building appeared to be unchanged.

Additional Remarks:

This site is directly across from Washington Elementary School. Pictures 001 and 002 were taken from the school parking lot. This site has been observed by several Marion FOS field inspectors for at least the past six months and tires have been observed on numerous occasions being stored inside and outside of the bays. Upon further investigation, Bloodworth's Garage has not registered or notified the Agency of tire activities since 1994 at the 606 E. Main Street location.
