NARRATIVE INSPECTION REPORT DOCUMENT

On January 11, 2012 I (Donna Shehane) conducted a follow-up inspection at Carlos Enterprises Auto Repair, located at 1303 S. Main, Rockford, Illinois, 61102. The weather at the time of this inspection was 53 °F with calm winds and partly cloudy skies. The purpose of this inspection was to determine the site's regulatory status and evaluate compliance with the Illinois Environmental Protection Act and Title 35 Illinois Administrative Code, Subtitle G, Part 848, Management of Used Tires. The last Used Tire Unit inspection at this facility was conducted on September 13, 2011 for which a Used Tire Administrative Citation Warning Notice was issued.

I arrived on site at approximately 1:30 pm and spoke with Mr. Elias Carlos. I had last visited the site on January 4, 2011 and had verbally told Mr. Carlos that there was water in the used tires and again explained the used tire storage regulations for a tire retail facility. I had taken four photos on January 4, 2011 which are attached to this inspection report. On January 11, 2012, I took three photos which are also attached. All three photos document water accumulation in the used tires which were again stored without a method utilized to prevent water accumulation. The inventory of used tires stored outside was approximately 35.

The Carlos Enterprises/Auto Repair facility was found to be in apparent violation at the time of this inspection. The following apparent violations were noted:

1. Section 55(a)(3) of the Act.
2. Section 55(k)(1) of the Act.
