### Narrative

On April 11, 2012, I conducted a Tire Storage Inspection from 11:47 a.m. until 12:55 p.m. at J & R Tire Service located at 27 N. Madison Street in Carthage, Illinois. I interviewed Jeff Cole and Joe Cole. The facility is owned and operated by J & R Tire Service, Inc. (See Corporate Warranty Deed and Secretary of State's Corporation File Detail Report). The facility consists of two buildings on contiguous properties separated by an alley. The Used and/or Waste Tire Activity Notification Form has been submitted. I interviewed Jeff Cole and Joe Cole.

Joe Cole produced customer invoices showing that the Illinois Tire User Fee is being collected as a separate and distinct item apart from the selling price. He produced documents (ST-8) showing that the Fee is being submitted to the Illinois Department of Revenue as required. Jeff Cole produced receipts for disposal of a semi load of used tires on February 14, 2012.

I observed about 450 used tires stored inside the main building where sales and automotive maintenance takes place. (See photographs 1 through 8).

I observed about 50 used tires stored outside at the facility. Used tires stored outside are not prevented from accumulating water. Several large tires stored outside were holding a lot of water. Sampling revealed the presence of larval mosquitoes. (See photographs 9, 10, 11, 12, 13, 16, 17, and 18).

I observed about 150 used tires stored inside a second building that is used for storage only. See photographs 19 through 25.

The following apparent violations were observed:

1. Pursuant to Section 55(a)(3) of the {Illinois} Environmental Protection Act (415 ILCS 5/55(a)(3)), no person shall, except at a tire storage site which contains more than 50 used tires, cause or allow the storage of any used tire unless the tire is altered, reprocessed, converted, covered, or otherwise prevented from accumulating water.

A violation of Section 55(a)(3) is alleged for the following reason: **J & R Tire Service, Inc. allowed the storage of used tires that were not prevented from accumulating water.**

2. Pursuant to Section 55(k)(1) of the {Illinois} Environmental Protection Act (415 ILCS 5/55(k)(1)), no person shall cause or allow water to accumulate in used or waste tires.

*The prohibitions specified in this subsection (k) shall be enforceable by the Agency either by administrative citation under Section 31.1 of this Act or as otherwise provided by this Act.*
