

ILLINOIS POLLUTION CONTROL BOARD
November 28, 1972

ILLINOIS POWER CO.)
)
)
 v.) #72-190
)
)
 ENVIRONMENTAL PROTECTION AGENCY)

Order of the Board on Petition for Reconsideration (by Mr. Currie):

After full hearing and briefs we denied Illinois Power's petition for a variance from the sulfur-dioxide emission standard applicable to Wood River Unit #5, in a lengthy opinion (October 24, 1972). Illinois Power asks us to reconsider or grant a rehearing. We decline to do so. Illinois Power had ample opportunity to present before us all evidence and arguments supporting its request, and it took full advantage of that opportunity. The present petition essentially restates the arguments earlier made and rejected, and we see no reason to depart from our earlier conclusions. No extraordinary circumstances are suggested to justify the extraordinary relief of relitigating issues already fully heard and decided.

The petition is hereby denied.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Order on Petition for Reconsideration this 28th day of November, 1972, by a vote of 5-0.

Christan J. Moffett
