RECEIVED CLERK'S OFFICE

NOTICE OF PROPOSED AMENDMENTS

MAY 10 2012

- 1) <u>Heading of the Part</u>: Organic Material Emission Standards and Limitations for the Metro East Area

 Pollution Control Board
- 2) <u>Code Citation</u>: 35 Ill. Adm. Code 219

| 3) | Section Numbers: | Proposed Action: |
|----|------------------|------------------|
| | 219.112 | Amend |
| | 219.128 | Amend |
| | 219.585 | Repeal |
| | 219.784 | Amend |
| | 219.792 | Repeal |

- 4) <u>Statutory Authority</u>: Implementing Section 10 and authorized by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/10, 27 and 28]
- A Complete Description of the Subjects and Issues Involved: A lengthy discussion of the whole of this rulemaking docket is discussed in the Board's April 19, 2012 opinion and order: In the Matter of: Gasoline Volatility Standards and Motor Vehicle Refinishing; Proposed Amendments to 35 Ill. Adm. Code Parts 211, 215, 218, and 219, R 12-24 (Apr. 19, 2012). In Part 219, this proposal repeals the Pollution Control Board's Gasoline Volatility Standards for the Metro East area at 35 Ill. Adm. Code 219.585 due to the applicability of the federal reformulated gasoline program. This proposal also updates incorporations by reference to be consistent with this proposed repeal and updates an ASTM standard. In addition, this proposal contains regulatory relief for the motor vehicle refinishing industry. It amends 35 Ill. Adm. Code 219.784 to allow for the use of an equivalent high volume, low pressure (HVLP) spray gun in motor vehicle refinishing operations and repeals the registration requirement at 35 Ill. Adm. Code 219.792 due to overlapping federal registration requirements.
- Published studies or reports, and sources of underlying data, used to compose this rulemaking: Specifically as to Part 281 only, ASTM D-323-08 As to the entire R12-24 proposal generally, see the list of documents in the answer to this question in the notice of proposed amendments to Part 218.
- 7) Will this rulemaking replace any emergency rulemaking currently in effect? No
- 8) Does this rulemaking contain an automatic repeal date? No
- 9) <u>Does this rulemaking contain incorporations by reference?</u> Yes

NOTICE OF PROPOSED AMENDMENTS

- 10) Are there any other proposed rulemakings pending in this Part? No
- 11) <u>Statement of Statewide Policy Objective</u>: This proposed rulemaking does not create or enlarge a State mandate, as defined in Section 3(b) of the State Mandates Act [30 ILCS 805/3(b)].
- Time, Place, and Manner in which interested persons may comment on this proposed rulemaking: The Pollution Control Board will accept written public comments on this proposal for a period of 45 days after the date of publication in the *Illinois Register*. Comments should reference Docket R12-24 and be addressed to:

Clerk's Office Illinois Pollution Control Board 100 W. Randolph St., Suite 11-500 Chicago, IL 60601

312/814-3620

The Board will also schedule two public hearings in this docket.

- 13) <u>Initial Regulatory Flexibility Analysis:</u>
 - A) Types of small businesses, small municipalities and not for profit corporations affected: Any small business, small municipality, or not for profit corporation engaged in the manufacture, sale, distribution, dispensing, supply, storage, or transport of gasoline will no longer be subject to 35 Ill. Adm. Code 219.585 and will continue to be subject to the federal reformulated gasoline program requirements. At its own option, any small business, small municipality, or not for profit corporation that meets the applicability criteria for motor vehicle refinishing operations will be allowed to use an equivalent HVLP spray gun as an alternate compliance option in motor vehicle refinishing operations. The amendment to 35 Ill. Adm. Code 219.792 will repeal the requirement to register with the Illinois EPA.
 - B) Reporting, bookkeeping or other procedures required for compliance: None for affected sources currently subject to the requirements in 35 Ill. Adm. Code 219.585. The federal reformulated gasoline program requires compliance with various recordkeeping, reporting, and registration requirements. Any source seeking to avail itself of the regulatory relief proposed in the he amendment to 35 Ill. Adm. Code 219.784 will be required to maintain USEPA's written approval of

NOTICE OF PROPOSED AMENDMENTS

the equivalent HVLP spray gun at the motor vehicle refinishing operation. The amendment to 35 Ill. Adm. Code 219.792 will repeal the requirement to register with the Illinois EPA.

- C) Types of Professional skills necessary for compliance: None
- 14) Regulatory Agenda on which this rulemaking was summarized: January 2012

The full text of the Proposed Amendments begins on the next page:

SUBPART A: GENERAL PROVISIONS

Section 219.112 Incorporations by Reference

The following materials are incorporated by reference and do not contain any subsequent additions or amendments:

- a) American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken PA 19428-9555
- 1) ASTM D 2879-86
- 2) ASTM D 323-08ASTM D 323-82-
- 3) ASTM D 86-82
- 4) ASTM D 369-69 (1971)
- 5) ASTM D 396-69
- 6) ASTM D 2880-71
- 7) ASTM D 975-68
- 8) ASTM D 3925-81 (1985)
- 9) ASTM E 300-86
- 10) ASTM D 1475-85
- 11) ASTM D 2369-87
- 12) ASTM D 3792-86
- 13) ASTM D 4017-81 (1987)
- 14) ASTM D 4457-85
- 15) ASTM D 2697-86
- 16) ASTM D 3980-87
- 17) ASTM E 180-85
- 18) ASTM D 2372-85
- 19) ASTM D 97-66

- 20) ASTM E 168-87 (1977)
- 21) ASTM E 169-87
- 22) ASTM E 260-91
- 23) ASTM D 2504-83
- 24) ASTM D 2382-83
- 25) ASTM D 323 82 (approved 1982)
- b) Standard Industrial Classification Manual, published by Executive Office of the President, Office of Management and Budget, Washington, D.C., 1987.
- c) American Petroleum Institute Bulletin 2517, "Evaporation Loss From Floating Roof Tanks", Second ed., February 1980.

SUBPART B: ORGANIC EMISSIONS FROM STORAGE AND LOADING OPERATIONS

Section 219.128 Monitoring VOL Operations

- a) Except as provided in subsection (d)—below, the owner or operator of each storage vessel with a design capacity greater than or equal to 40,000 gallons storing a liquid with a maximum true vapor pressure that is normally less than 0.75 psia shall notify the Agency within 30 days when the maximum true vapor pressure of the liquid exceeds 0.75 psia.
- b) Available data on the storage temperature may be used to determine the maximum true vapor pressure.
- 1) For vessels operated above or below ambient temperatures, the maximum true vapor pressure is calculated based upon the highest expected calendar-month average of the storage temperature. For vessels operated at ambient temperatures, the maximum true vapor pressure is calculated based upon the maximum local monthly average ambient temperature as reported by the National Weather Service.
- 2) For other liquids, the vapor pressure:
- A) Determined by ASTM Method D2879-83, incorporated by reference at Section 219.112(a) $\frac{219.112(a)(1)}{219.112(a)(1)}$ of this Part;
- B) Measured by an appropriate method approved by the Agency and USEPA; or
- C) Calculated by an appropriate method approved by the Agency and USEPA.
- c) The owner or operator of each vessel storing a mixture of indeterminate or variable composition shall be subject to the following:
- 1) Prior to the initial filling of the vessel, the maximum true vapor pressure for the range of anticipated liquid compositions to be stored will be determined using the methods described in subsection (b) above.
- 2) For vessels in which the vapor pressure of the anticipated liquid composition is 0.5 psia or greater but less than 0.75 psia, an initial physical test of the vapor pressure is required; a physical test at least once every 6 months thereafter is required as determined by the following methods:
- A) ASTM Method D2879-83, incorporated by reference at Section 219.112(a) $\frac{219.112(a)(1)}{(a)}$ of this Part;
- B) ASTM Method D323- $\frac{08D323-82,08}{219.112(a)(25)}$ of this Part; or
- C) As measured by an appropriate method approved by the Agency.
- <u>Dd</u>) The owner or operator of each vessel equipped with a closed vent system and control device meeting the specifications of Section 219.120 of this Subpart is exempt from the requirements of subsections (a) and (b) <u>above</u>.

| SUBPART Y | Υ: | GASOLINE | DI | STRIB | UTION | | |

Section 219.585 Gasoline Volatility Standards (Repealed)

- a) No person shall sell, offer for sale, dispense, supply, offer for supply, or transport for use in Illinois gasoline whose Reid vapor pressure exceeds the applicable limitations set forth in subsections (b) and (c) below during the regulatory control periods, which shall be June 1 to September 15.
- b) The Reid vapor pressure of gasoline, a measure of its volatility, shall not exceed 7.2 psi (49.68 kPa) during the regulatory control period in 1995 and each year thereafter.
- c) The Reid vapor pressure of ethanol blend gasolines having at least nine percent (9%) but not more than ten percent (10%) ethyl alcohol by volume of the blended mixture, shall not exceed the limitations for gasoline set forth in subsection (b) of this Section by more than 1.0 psi (6.9 kPa). Notwithstanding this limitation, blenders of ethanol blend gasolines whose Reid vapor pressure is less than 1.0 psi above the base stock gasoline immediately after blending with ethanol are prohibited from adding butane or any product that will increase the Reid vapor pressure of the blended gasoline.
- d) All sampling of gasoline required pursuant to the provisions of this Section shall be conducted in accordance with the procedures contained in 40 CFR-Part 80, Appendix D, Sampling Procedures for Fuel Volatility, which are incorporated by reference in Section 219.112 of this Part.
- e) The Reid vapor pressure of gasoline shall be measured in accordance with the procedures contained in "Tests for Determining Reid Vapor Pressure (RVP) of Gasoline and Gasoline Oxygenate Blends" as set forth in 40 CFR 80, Appendix E, incorporated by reference in 35 Ill. Adm. Code 219.112 of this Part.
- f) The ethanol content of ethanol blend gasolines shall be determined by use of one of the approved testing methodologies specified in 40 CFR Part 80, Appendix F, incorporated by reference in 35 Ill. Adm. Code 219.112 of this Part.
- g) Any alternate to the sampling or testing methods or procedures contained in subsections (d), (e), and (f) of this Section must be approved by the Agency, which shall consider data comparing the performance of the proposed alternative to the performance of one or more approved test methods or procedures. Such data shall accompany any request for Agency approval of any alternate test procedure. If the Agency determines that such data demonstrates that the proposed alternative will achieve results equivalent to the approved test methods or will achieve results equivalent to the approved test methods or procedures, the Agency shall approve the proposed alternative.
- h) Recordkeeping and reporting:
- 1) Each refiner or supplier that distributes gasoline or ethanol blends shall:
- A) During the regulatory control period, state that the Reid vapor pressure of all gasoline or ethanol blends leaving the refinery or distribution facility for use in Illinois complies with the Reid vapor pressure limitations set forth in 35 Ill. Adm. Code 219.585(b) and (c) of this Part. Any source receiving this gasoline shall be provided with a copy of an invoice, bill of lading, or other documentation used in normal business practice stating that the Reid vapor pressure of the gasoline complies with the State Reid vapor pressure standard.

- B) Maintain records for a period of three years on the Reid vapor pressure, quantity shipped and date of delivery of any gasoline or ethanol blends leaving the refinery or distribution facility for use in Illinois. The Agency shall be provided with copies of such records if requested.
- 2) Records and reports required by subsections (h)(2)(A) and (h)(2)(B) below shall be made available to the Agency upon request. During the regulatory control period, the owner or operator of a gasoline dispensing operation subject to this Section shall:
- A) Retain a copy of an invoice, bill of lading, or other documentation used in normal business practice stating that the Reid vapor pressure of the gasoline complies with the State Reid vapor pressure standard as provided in subsection (h)(1)(A) above; and
- B) Maintain records for a period of three years on the Reid vapor pressure, quantity received and date of delivery of any gasoline or ethanol blends arriving at the gasoline operation.

SUBPART HH: MOTOR VEHICLE REFINISHING

Section 219.784 Equipment Specifications

Every owner or operator of a motor vehicle refinishing operation, unless the source uses less than 20 gallons of coating per calendar year from all motor vehicle refinishing operations combined, shall:

- a) Coat motor vehicles, mobile equipment, or their parts and components using one of the following coating applicators:
- 1) Electrostatic spray equipment calibrated, operated and maintained in accordance with the manufacturer's specifications; or
- 2) High Volume Low Pressure (HVLP) spray equipment calibrated, operated and maintained in accordance with the manufacturer's specifications; or and
- 3) An equivalent coating applicator technology that is demonstrated by the manufacturer to achieve transfer efficiency comparable to the HVLP spray equipment technology listed in subsection (a)(2) of this Section for a comparable operation, and for which written approval has been obtained from the USEPA. The owner or operator must maintain documentation of the USEPA's approval at the motor vehicle refinishing operation; and
- b) Clean all coating applicators with a device that:
- 1) Recirculates solvent during the cleaning process;
- 2) Collects spent solvent so it is available for disposal or recycling; and
- 3) Minimizes evaporation of solvents during cleaning, rinsing, draining, and storage.

| Section | n 219.792 Registration (Repealed) |
|--------------------|--|
| registe | Every owner or operator of a motor vehicle refinishing operation shall er with the Agency on or before the date specified in Section 219.791 of abpart. The following information shall be included in this registration |
| | The name and address of the source, and the name and telephone number of reson responsible for submitting the registration information; |
| equipme | description of all coating operations of motor vehicles, mobile ent, or their parts or components, and all associated surface preparation at the source; |
| | description of all coating applicators used at the source to comply with 219.784(a) of this Subpart, if applicable; |
| | description of all cleanup operations at the source, including equipmen comply with Section 219.784(b) of this Subpart, if applicable; |
| | description of all work practices at the source used to comply with 219.787 of this Subpart; |
| 219.784 | If a source claims to be exempt from the equipment requirements in Section of this Subpart because it uses less than 20 gallons of coating per the owner's or operator's certification that the annual usage is below evel; |
| Subpart | written declaration stating whether the source is complying with this by using coatings that comply with the applicable VOM content limits in 219.780 of this Subpart or by control equipment as specified in Sections; and |
| | description of any control devices used to comply with Section 219.782 Subpart and the date(s) the device was installed and became operational |
| from Se refinis | t least 30 calendar days before changing the method of compliance to or ections 219.780 and 219.782, the owner or operator of a motor vehicle whing operation shall notify the Agency and certify that the source is in the with the applicable requirements for the new method of compliance. |

| 699 | | | SOBI ART IIII. MOTOR VEHICLE REFINISHING |
| 700 701 | Section 219. | 784 Ec | quipment Specifications |
| 702 | Every owner | or oper | rator of a motor vehicle refinishing operation, unless the source uses less than |
| 703 | 20 gallons of | coating | g per calendar year from all motor vehicle refinishing operations combined, |
| 704 | shall: | | |
| 705 | | | |
| 706 | a) | Coat | motor vehicles, mobile equipment, or their parts and components using one |
| 707 | | of the | e following coating applicators: |
| 708 | | | |
| 709 | | 1) | Electrostatic spray equipment calibrated, operated and maintained in |
| 710 | | | accordance with the manufacturer's specifications; or |
| 711 | | | |
| 712 | | 2) | High Volume Low Pressure (HVLP) spray equipment calibrated, operated |
| 713 | | | and maintained in accordance with the manufacturer's specifications; |
| 714 | | | <u>or</u> and |
| 715 | | | |
| 716 | | <u>3)</u> | An equivalent coating applicator technology that is demonstrated by the |
| 717 | | | manufacturer to achieve transfer efficiency comparable to the HVLP spray |
| 718 | | | equipment technology listed in subsection (a)(2) of this Section for a |
| 719 | | | comparable operation, and for which written approval has been obtained |
| 720 | | | from USEPA. The owner or operator must maintain documentation of |
| 721 | | | USEPA's approval at the motor vehicle refinishing operation; and |
| 722 | | | |
| 723 | b) | Clean | all coating applicators with a device that: |
| 724 | | | |
| 725 | | 1) | Recirculates solvent during the cleaning process; |
| 726 | | | |
| 727 | | 2) | Collects spent solvent so it is available for disposal or recycling; and |
| 728 | | - | |
| 729 | | 3) | Minimizes evaporation of solvents during cleaning, rinsing, draining, and |
| 730 | | , | storage. |
