ORDER OF THE BOARD (by Mr. Dumelle):

The Board hereby extends the variance granted by the Board's October 4, 1973 Order (Commonwealth Edison Company v. EPA, PCB 73-40), as amended November 29, 1973 be extended until June 4, 1974 for the Waukegan Station. The Board hereby extends the variance granted to Commonwealth Edison Company for its Sabrooke Stations Unit 1, 2 and 3 (Commonwealth Edison Company v. EPA, PCB 73-40) which was granted on October 4, 1973, amended on November 29, 1973 and modified on December 20, 1973. The applicable shutdown dates of Sabrooke Units 2 and 3 is now June 4, 1974.

The Board grants this interim variance because Edison is currently proceeding with a schedule of hearings on variances for five of its stations which include the Waukegan and Sabrooke Stations, (PCB 74-16). At the hearings on this variance request, Edison will present evidence relating to the Waukegan and Sabrooke Stations. This interim extension will enable the Board to make a reasoned decision on the basis of a complete record. Neither the Agency or the Attorney General expressed objection to the grant of this interim extension.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 4th day of April, 1974 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
