RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Michael Moats

In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance. We, the people surrounded by pollution by insecticide and pesticides that are making us sick by farmer, do not want to be further poisoned by corporate coal interests. Lets take the rules we have and enforce them to bring our children healthy not sickly lives I love my kids as I am sure you do...I want them free from chemicals that are making them sick in so many ways. Please regulate, regulate, regulate...de-regulation of so much in the 70's and 80's forward are making us sick and killing so many.. Death by corporate selfishness...let's stop this NOW.

RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Meg Mass  
6600 S University Ave  
Chicago, IL 60637
