RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Ronald Moore

RE: PCB 2013-024

Mr. Therriault

Coal kills. It's that simple. It also lowers IQs and causes enormous damage to the environment, right by my hometown, as it so happens. Please do not allow Midwest to get away with the delay. Of \*course\* they say they cannot afford it. That's a lie - it's a cost they are externalizing to children with asthma and lowered IQs and adults with heart and lung disease. What \*we\* really cannot afford is the death and environmental damage spewing from their smoke stacks. What right do they have to shift their monetary costs to us, who pay with our lives?

Sincerely,

RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Robert Mitzel  
410 N. Raynor Ave.  
Joliet, IL 60435
