RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

C Kent argenta

I work with students growing up right near your smoke stacks...record numbers of these children with asthma. We do not even get to have a full-time nurse-it is daunting to have to pAW THROUGH 50 inhalors to find the correct one when a child cannot breathe. Do the right, compassionate thing and pay to become compliant by scrubbing your particulate matter. Do not let all of us including our valued children scrub your pollution with our lungs...

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Victoria Fuller
