RE: PCB 2013-024

Mr. Therriault

Quit giving them a free pass! Do what we elected you to do and protect our air!! Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Jeffrey Griswold

RE: PCB 2013-024

Mr. Therriault

Midwest Generation has already had five years to clean up their act. Their dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. The fact that they haven't managed to take care of it by now only shows it is not a priority for them. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting NO on the requested variance.
