RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Steven Bates

In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance. I have Asthma & live in Chicago. The pollution and air quality alert days were at an historic high last summer. If this continues, I will need to move away, and believe me, you will miss my sales and property tax I contribute to our local economy. Chicago has the highest childhood deaths from Asthma...we need to get cleaner, not dirtier!!!
