RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Rob Hansen
1512 W. Lunt Ave.
Chicago, IL 60626

RE: PCB 2013-024

Mr. Therriault

Ameren coal burning generation plant in Coffeen, Illinois installed scrubbers several years ago and the exhaust from the new stack is near zero in visible pollutants in comparison to the old stack. These improvements are possible at any coal burning plant in Illinois. They should be required at all.

Sincerely,

Craig Baumberger
